

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of the Proposed Lease of            )     CORRECTING ORDER ON  
Existing Water Rights for Instream Use,        )     INSTREAM LEASE  
Certificates 74146, 74147, and 76106,         )  
County    )

**Authority**

ORS 537.348 establishes the process in which a water right holder may submit a request to lease an existing water right for instream purposes. OAR Chapter 690, Division 077 implements the statutes and provides the Department’s procedures and criteria for evaluating instream lease applications.

**Lessor #1**

Pooled Instream Lease for several landowners  
(described in Findings of Fact #3, 4, and 5)

**Lessor #2**

Tumalo Irrigation District (TID)  
64697 Cook Ave.  
Bend, OR 97701  
[tid@tumalo.org](mailto:tid@tumalo.org)

**Lessee**

Deschutes River Conservancy (DRC)  
P.O. Box 1560  
Bend, Oregon 97709  
[gen@deschutesriver.org](mailto:gen@deschutesriver.org)

**Findings of Fact**

1. On April 14, 2008, the DRC and TID, on behalf of various water right holders, filed an application to lease a portion of Certificates 74146, 74147, and 76106 to instream use. The Department assigned the application number IL-916.
2. On April 24, 2008, the applicants provided revised application maps and on April 29, 2008, the Lessee provided revised pooled lease forms to clarify the portion of the rights being leased to instream use. On May 19, 2008, Lessor #2 concurred with the proposed changes.
3. On June 3, 2008, the Department issued an order approving this instream lease application, as evidenced by Special Order Volume 75, Page 1. Following issuance of this order a scrivener’s error was identified. The order identified the instream reach as extending from the Point of Diversion to Lake Billy Chinook. However, the application had requested a reach to the mouth of the Deschutes River. This order is being issued to correctly describe the instream reach and supersedes Special Order Volume 75, Page 1.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. The portion of the first right to be leased has been modified from the lease application and is as follows:

**Certificate:** 74146  
**Use:** Irrigation  
**Season of Use:** April 15 through October 15  
**Priority Date:** September 1900, May 27, 1907 and June 1, 1907  
**Acres:** 62.4 acres, being 38.1 acres under the September 1900 priority date, 18.3 acres under the May 27, 1907 priority date, and 6.0 acres under the June 1, 1907 priority date  
**Quantity:** Rate: 0.891 CFS (limited to 1/70<sup>th</sup> CFS/acre), being  
September, 1900: 0.544 CFS  
May 27, 1907: 0.261 CFS  
June 1, 1907: 0.086 CFS  
Duty: 112.32 Acre-Feet (AF) (limited to 1.8 AF/acre), being  
September, 1900: 68.58 AF  
May 27, 1907: 32.94 AF  
June 1, 1907: 10.80 AF  
The quantities listed are as determined by decree of the Circuit Court of Deschutes County, in Volume 1, Page 135, and Volume 16, Page 188.  
**Source:** Tumalo Creek, tributary to the Deschutes River

**Authorized Place of Use:**

6. The portion of the third right to be leased has been modified from the lease application and is as follows:

**Certificate:** 76106

**Priority Date:** December 8, 1961

**Use:** Irrigation

**Acres:** 41.46 acres

**Season of Use:** April 15 through October 15 (as established by Tumalo Creek Decree)

**Quantity:** Rate (limited to 1/70<sup>th</sup> CFS/acre): 0.59 CFS  
 Duty (limited to 2.5 AF/acre): 103.65 AF, further limited to a maximum of 57.69 AF from storage

**Source:** Tumalo Creek and Upper Tumalo Reservoir, constructed under Permit R-2743, tributaries of the Deschutes River

**Authorized Place of Use:**

Twp	Rng	Mer	Sec	Q-Q	Tax Lot	Acres	Water Right Holder (Lessor #1)
16 S	11 E	WM	1	SW SE	600	14.46	Chris & Lisa Brehmer

17 S	11 E	WM	11	NW SW	1601	2.0	Peter & Jacqueline McCook

**Authorized Points of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
17 S	11 E	WM	23	SE NE	Tumalo Creek – 2080 feet South and 1310 feet West from the NE corner of Section 23
16 S	11 E	WM	33	SE SW	Upper Tumalo Reservoir

7. The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received.
8. The lease application requests to protect water instream under Certificate 76106 beginning from Upper Tumalo Reservoir. However, Upper Tumalo Reservoir is an off channel reservoir. Water is diverted from Tumalo Creek, through a canal, and into the reservoir. There is no outlet from the Reservoir back to Tumalo Creek. Water protected instream under Certificate 76106 shall be from live flow only and begin at the point of diversion on Tumalo Creek.

9. It appears that the point of diversion for Certificate 76106 on Tumalo Creek is also the Tumalo Feed Canal point of diversion identified for Certificates 74146 and 74147 as described in Finding of Fact #2 and #3. For the purposes of this lease, water shall be protected instream under Certificates 74146, 74147, and 76106 beginning at the Tumalo Feed Canal point of diversion, being:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
17 S	11 E	WM	23	SW NE	Tumalo Feed Canal – N 70 degrees 21' W; 1550 feet from the East ¼ corner of Section 23

10. The Lessor and Lessee have requested to protect water instream from the POD on Tumalo Creek described in Finding of Fact #3 to the mouth of the Deschutes River. A portion of the water diverted at the POD returns to Tumalo Creek and to the Deschutes River along the proposed reach. All return flows from the existing use are back in the river system once river flows reach the Madras Gage. To prevent injury or enlargement of the right, the quantity of water that may be protected instream requires modification to account for return flows at the Madras Gage.
11. The instream use has been modified from the lease application to prevent injury and enlargement and is as follows:  
Tumalo Creek, tributary to the Deschutes River

**Instream Reach #1:** From the Tumalo Feed Canal POD (as described in Findings of Fact #8) into the Deschutes River and to Lake Billy Chinook

Priority Date	Instream Rate (CFS)								Instream Volume (AF)

**Instream Reach #2:** From the Lake Billy Chinook to the mouth of the Deschutes River

Certificate	Priority Date	Instream Rate (CFS)	Instream Volume (AF)	Instream Period
74146	9/1900	0.19	68.58	4/15 through 10/15
	5/27/1907	0.090	32.94	
	6/1/1907	0.030	10.80	
74147	19/29/1913	0.73	301.0	4/1 through 10/26
76106	12/8/1913	0.18	74.6	4/1 through 10/31
<b>Totals</b>		<b>1.22</b>	<b>487.92</b>	

12. Other conditions to prevent injury and enlargement are:

Within the specified stream reach, the amount of water to which this right is entitled shall not exceed the quantity of water legally available at the original point of diversion. Stream

channel losses and gains calculated based on available data and the use of water by senior appropriators will determine the amount of water to which this right is entitled downstream from the original points of diversion within the specified stream reach.

13. There are supplemental water rights, Certificates 76714, 74147, 84148, 74149, and 76520, appurtenant to lands described in Findings of Fact #3, #4, and #5. The Lessor and Lessee have not requested that these water rights be included as part of this lease application. During the term of the lease, water use under these supplemental water rights will also be suspended on the lands being leased instream.
14. The lease application requests to protect water instream from Tumalo Creek into the Deschutes River. An instream reach is generally from the point of diversion to the mouth of the source stream (Tumalo Creek) but may be protected further if measurable in the receiving stream (the Deschutes River) (OAR 690-077-0015 (8)). The quantity that may be leased instream from Tumalo Creek is measurable into the Deschutes River and may be protected instream in the Deschutes River.
15. If approved, this instream lease is not reasonably expected to significantly affect land use as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.
16. Based upon review of the application, comments received, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.
17. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.
18. The lease will terminate on October 31, 2008.

### **CONCLUSIONS OF LAW**

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

### **ORDER**

Therefore, it is ORDERED:

1. That the Lease as described herein is APPROVED.

2. The former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered water rights for irrigation use, including ground water registrations during the term of the lease.
3. The lease will terminate on October 31, 2008.
4. This correcting order supersedes Special Order Volume 75, Page 1.

Dated at Salem, Oregon this 31<sup>ST</sup> day of July 2008.

  
Phillip C. Ward, Director
