8. Notice of the application for transfer was published on September 7, 2010, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
9. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.
10. On November 22, 2010, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11126 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of December 22, 2010, for the applicant to respond. The applicant requested that the Department make a few corrections, extend the completion date to allow for completion of the project, and proceed with issuance of a Preliminary Determination.
11. On December 6, 2011, the Department issued a Preliminary Determination proposing to approve Transfer T-11126 and mailed a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on December 7, 2010, and in the Headlight-Herald newspaper on December 15, 22, and 29, 2010, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

***Transfer Review Criteria [OAR 690-380-4010(2)]***

12. Certificates 32238 and 44554 are for municipal use. Therefore, they are not subject to forfeiture under ORS 540.610.
13. A diversion structure and pipelines sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-11126.
14. The proposed changes would not result in enlargement of the rights.
15. The proposed changes would not result in injury to other water rights.

## Conclusions of Law

The change in point of diversion and change in place of use proposed in Transfer Application T-11126 are consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

### Now, therefore, it is ORDERED:

1. The change in point of diversion and change in place of use proposed in Transfer Application T-11126 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 32238 and 44554 any related decree.
3. Water right certificates 32238 and 44554 are cancelled. New certificates will be issued describing the portions of the rights not affected by this transfer.
4. The quantity of water diverted at the additional point of diversion, together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.
5. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
6. The water user shall maintain the existing headgate and shall make such improvements as may be required by the Department.
7. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.
8. The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2020**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
9. When satisfactory proof of the completed changes is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this 31<sup>st</sup> day of January 2011.
