The time limits having expired, it is urgent that a decision be made upon these applications in order that the applicants may proceed to complete the construction work in connection with a change in point of diversion and/or apply the water to beneficial use upon the lands to which the water was heretofore transferred.

Actual examination of the premises of applicants is practically impossible due to limited personnel and funds and the State Engineer is, therefore, compelled to judge the matter of diligence entirely on the statement contained in the respective applications for extensions of time.

The statements contained in the applications for extensions of time indicate that each applicant has shown such reasonable diligence as entitles him to an extension of time.

No protests or objections to the granting of an extension of time have been filed.
