

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

YAMHILL COUNTY

ORDER AMENDING TRANSFER 7429

The order of the Water Resources Director approving Transfer Application 7429 was entered December 5, 1996, at Special Order Volume 50, Page 837. The order required the changes be completed by October 1, 1998. Permit R-11664 was approved February 29, 1996, with a date for complete application of water of October 1, 1999.

It was brought to staff's attention that, inadvertently, the wrong completion date had been set in the transfer approval order.

The use of water allowed by the transfer is for, among other things, the maintenance of the reservoir to be constructed under Permit R-11664. The date for completion of the changes allowed by the transfer and the date for complete application of water allowed by the permit should be the same. Transfer 7429 should be amended so that the time for completion of the changes is October 1, 1999.

OAR 690-15-087 provides:

"(3) ... The time for completion of the change requested in a transfer application is one full year plus the time until the next October 1. ... A longer time for completion may be allowed if the applicant can justify the need for a longer period of time."

The order reads:

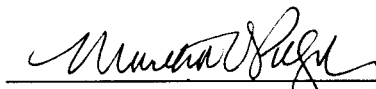

"1. The proposed change shall be completed on or before October 1, 1998."

The order should read:

"1. The proposed changes shall be completed on or before October 1, 1999."

The order of the Water Resources Director entered December 5, 1996, at Special Order Volume 50, Page 837, is AMENDED as described herein.

WITNESS the signature of the Water Resources Director, affixed 5/5/98

Martha O. Pagel, Director
