OF THE
STATE OF OREGON**

In the Matter of Transfer Application)
T-11948, Crook County)
) **FINAL ORDER APPROVING A**
) **CHANGE IN POINT OF DIVERSION**
) **AND PLACE OF USE**

Authority

Oregon Revised Statute (ORS) 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicants

OTTO AND FAY KELLER
13878 SE MOUNTAIN CREST DR
HAPPY VALLEY, OR 97086

Findings of Fact

1. On December 22, 2014, OTTO AND FAY KELLER filed an application to change the point of diversion, add additional points of diversion, and to change the place of use under Certificate 87644. The Department assigned the application number T-11948.
2. Notice of the application for transfer was published on January 6, 2015, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On February 13, 2015, the Department contacted the applicants' agent by telephone to notify them of a minor deficiency on the transfer map and to clarify with the agent that this is not an additional point of diversion, it is just a point of diversion change.
4. On March 6 and 10, 2015, an amended application page and amended transfer map were received.
5. On March 20, 2015, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11948 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of April 20, 2015, for the applicants to respond.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. The applicants requested that the Department proceed with issuance of a Preliminary Determination with some amendments to the draft Preliminary Determination, including that the date for full beneficial use be extended to October 1, 2017. The applicants provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.
7. On May 21, 2015, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11948 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on May 26, 2015, and in the Central Oregonian newspaper on May 22 and 29, 2015, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
8. The right to be transferred is as follows:

14. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

15. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
16. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11948.

17. The proposed changes would not result in enlargement of the right.
18. The proposed changes would not result in injury to other water rights.

Conclusions of Law

The change in point of diversion and change in place of use proposed in Transfer Application T-11948 are consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in point of diversion and change in place of use proposed in Transfer Application T-11948 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 87644 and any related decree.
3. Water right Certificate 87644 is cancelled.
4. The quantity of water diverted at the new points of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.
5. Water use measurement conditions:
 - a. **Before water use may begin** under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of diversion.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.
7. The former place of use of the transferred right shall no longer receive water under the right.

8. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2017**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
9. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 1 day of July, 2015.
