

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) FINAL ORDER APPROVING
T-13847, Morrow County) A DISTRICT TEMPORARY TRANSFER
)

Authority

Oregon Revised Statute (ORS) 540.570 establishes the process in which a district may submit a request to temporarily transfer a water right within district boundaries. Oregon Administrative Rule (OAR) Chapter 690, Division 385 implements the statutes and provides the Department’s procedures and criteria for evaluating district transfer applications.

Applicant

WILLOW CREEK DISTRICT IMPROVEMENT COMPANY
C/O BRIAN THOMPSON
55805 HWY 74
HEPPNER, OR 97836

Findings of Fact

1. On October 14, 2021, Willow Creek District Improvement Company filed a district transfer application to temporarily change the places of use within the boundaries of the irrigation district under Certificates 30021, 82489, 94969, and 94967, and Permits G-15586 and S-54980. The Department assigned the application number T-13847.
2. Notice of the application for transfer was published on November 9, 2021, pursuant to ORS 540.570 and OAR 690-385-3400. No comments were filed in response to the notice.
3. On October 27, 2021, the applicant amended the application to correct the irrigation season on the application from 2020 to 2021.
4. The portion of the first right to be transferred is as follows:
Certificate: 30021 issued in the name NEWT O’HARRA (perfected under Permit S-20861)
Use: IRRIGATION of 33.9 acres
Priority Dates: NOVEMBER 9, 1951
Rate: 0.57 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-SIXTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

exceed 4.0 acre-feet for each acre irrigated during the irrigation season of each year.

19. The district temporary transfer application satisfies the criteria of ORS 540.570 and OAR 690-385-3000, contains the information required under OAR 690-385-3200, and includes a map meeting the requirements of OAR 690-385-3300.
20. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
21. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
22. Diversion structures, district canals, pumps, pump stations, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights are present.
23. The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.
24. The proposed change in places of use, as conditioned, will not result in enlargement of the rights as defined in OAR 690-385-0100(6).
25. The proposed change in places of use would not result in injury to other water rights as defined in OAR 690-385-0100(4).
26. All other applicable requirements for district temporary water right transfers are met.

Conclusions of Law

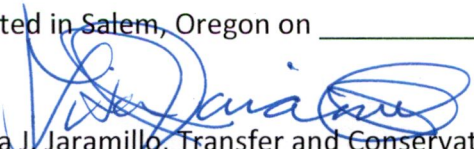

The temporary change in places of use proposed in Temporary Transfer Application T-13847 is consistent with the requirements of ORS 540.570 and OAR 690-385-3500.

Now, therefore, it is ORDERED:

1. The water user shall operate and maintain an approved fish screen at the new point of diversion. If the Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.
2. The temporary changes in places of use proposed in Transfer Application T-13847, as conditioned above, are approved.

3. The former places of use **shall not** be irrigated as part of these water rights during the 2021 irrigation season.
4. The use shall revert to the authorized places of use after the 2021 irrigation season.
5. Any application for permanent transfer of Certificates 30021, 82489, 94969, and 94967, shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Divisions 380 or 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture of Certificates 30021, 82489, 94969, and 94967, under ORS 540.610.
7. The use of water on lands from which the right is transferred and in the new temporary location during the same irrigation season or calendar year is prohibited and may subject the district and the landowner to civil penalties.
8. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
10. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 30021, 82489, 94969, and 94967, and Permits G-15586 and S-54980.
11. The use of the remaining water rights described by Certificates 30021, 82489, 94969, and 94967, and Permits G-15586 and S-54980, not involved in this transfer shall continue to be in accordance with the terms and conditions of Certificates 30021, 82489, 94969, and 94967, and Permits G-15586 and S-54980.
