

BEFORE THE STATE ENGINEER OF OREGON

Hood River County

IN THE MATTER OF THE APPLICATION)
OF THE DEE IRRIGATION DISTRICT)
FOR AN EXTENSION OF TIME WITHIN)
WHICH TO COMPLETE APPLICATION OF)
WATER UNDER PERMITS NO. 165 AND)
18546.)
-----)

ORDER
EXTENDING TIME

Comes now the Dee Irrigation District and applys to the State Engineer for a further extension of time within which to make complete application of water to beneficial use under its permits No. 165 and 18546.

The time for complete application of water, as heretofore extended by Order of the State Engineer upon a showing of good cause therefor, will expire on October 1, 1960.

In its application, the district states that approximately 850 acres have been reclaimed and are being irrigated and that approximately 350 acres remain to be reclaimed and brought under irrigation. Said 350 acres is contained in 29 individual ownerships, ranging from 1.0 acre to 34.14 acres besides 139.94 acres owned by Hood River County.

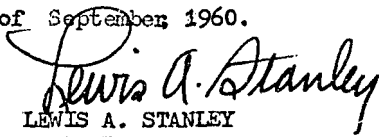

It appears that the individual landowners within the district are now aware of the necessity of completing the application of water to beneficial use, under the terms and conditions of said permits, and have indicated in good faith, a desire to proceed as rapidly as possible with the work remaining to be done.

The matter has been given very careful consideration in view of the many years which have elapsed since the original permit was granted. Believing that the various individual landowners whose lands under the districts permits, remain to be reclaimed and irrigated, will be sincere in their efforts to bring their respective

lands under complete application of water, it is considered that one more extension of time should be granted.

NOW THEREFORE, it is ORDERED that the Dee Irrigation District shall have until October 1, 1962 within which to make complete application of water to beneficial use under its permits No. 165 and 18546.

Dated at Salem, Oregon this 7th day of September, 1960.

LEWIS A. STANLEY
State Engineer
