

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

JACKSON COUNTY

IN THE MATTER OF THE APPLICATION OF )  
HIROSHI WALTER EMORI & HIROMU MORIKONI )  
FOR APPROVAL OF A CHANGE IN POINT OF )  
DIVERSION OF WATER )  
-----

ORDER APPROVING  
TRANSFER NO. 4519

On May 27, 1980, an application was filed in the office of the Water Resources Director by Hiroshi Walter Emori & Hiromu Morikoni for approval of a change in point of diversion of water from Applegate River, pursuant to the provisions of ORS 540.510 to 540.530.

By Decree of Circuit Court for Jackson County, entered April 26, 1919, in the Matter of the Determination of the Relative Rights to the Use of the Waters of Rogue River and Its Tributaries, tabulated at page 22, Volume 4, Order record of the Water Resources Director, a water right was allowed in the name of Z. Cameron, and is a portion of the right described by the certificate recorded at page 38778, Volume 30, State Record of Water Right Certificates, in the names of James F. & Glenna H. Corson, and is for the use of not to exceed 0.37 cubic foot per second of water from Applegate River, with a date of priority of 1876, for irrigation of a certain 15.0 acres in SE 1/4 SW 1/4, Section 28, Township 39 South, Range 3 West, W.M.

Water for the said right is diverted, through the Comstock Ditch, from a point located 1000 feet North and 1190 feet East from the Southwest Corner of Section 5, being within the SW 1/4 SW 1/4 of Section 5, Township 40 South, Range 3 West, W.M.

The applicants herein, owners of the lands above described, propose to change the point of diversion therefrom, without loss of priority, to a point located 10 feet North and 370 feet West from the South Quarter Corner of Section 28, being within the SE 1/4 SW 1/4, Section 28, Township 39 South, Range 3 West, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the Mail Tribune, a newspaper printed and having general circulation in Jackson County, Oregon, for a period of three weeks in the issues of June 5, 12 and 19, 1980.

Mr. David C. Hendrix, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1981.

It is FURTHER ORDERED that the certificate recorded at page 38778, Volume 30, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicants herein.

Dated at Salem, Oregon this 1st day of August, 1980.

  
JAMES E. SEXSON  
Director
