

8. The claim of beneficial use did not contain map(s) of the point(s) of diversion from the source. However, since these changes are for place of use only within an irrigation district, and do not involve changes in point of diversion, the existing map(s) on file with the Department are sufficient to identify the point(s) of diversion from the source.
9. The Claim of Beneficial Use (CBU) site report and associated map for portions of the transfer were proved up on differently than authorized by the final order and are more completely described in the tables below:
