Partial Cancellation of certain Water Rights

Portions of water right Certificates 39053, 82151, and 94222 are appurtenant to certain authorized lands involved in this Transfer T-13049.

19. Water rights were conveyed to FID on April 17, 2018, by Murphy, James H. & Fama L. Trust Estate, owners of lands to which portions of Certificates 74306 and 39053 are appurtenant. On October 24, 2018, FID submitted an affidavit meeting the requirements of ORS 540.621 for voluntary cancellation for a portion of Certificate 39053. The affiant requested a portion of Certificate 39053 be cancelled as it will not be transferred along with the associated primary. The affiant identified a “layered” supplemental water right on the “FROM” lands and do not intend to transfer this water right with the primary water right. The affiant requests a partial cancellation described as follows:

Certificate: 39053 in the name of JAMES HESS (perfected under Permit S-28458)

Use: SUPPLEMENTAL IRRIGATION of 0.20 ACRE

Priority Date: APRIL 18, 1962

Amount: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre-feet for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

20. Certificate 39053 is a deficient water right. The abandoned portion of the water right no longer authorizes water to be applied at the place of described in Finding of Fact #19, but does not reduce the total quantity of water available for supplemental irrigation.
21. Water rights were conveyed to FID on April 3, 2018, by Franco Marchesi, owner of lands to which portions of Certificates 74306 and 82151 are appurtenant. On October 24, 2018, FID submitted an affidavit meeting the requirements of ORS 540.621 for voluntary cancellation for a portion of Certificate 82151. The affiant requested a portion of Certificate 82151 be cancelled as it will not be transferred along with the associated primary. The affiant identified a “layered” supplemental water right on the “FROM” lands and do not intend to transfer this water right with the primary water right. The affiant requests a partial cancellation described as follows:

Water rights were also conveyed to FID on March 12, 2018, by Martin and Kathleen Sanders, owners of lands to which portions of Certificates 74306 and 94222 are appurtenant. On January 19, 2019, FID submitted affidavits meeting the requirements of ORS 540.621 for voluntary cancellation for Certificate 94222. The affiant identified a "layered" supplemental water right on the "FROM" lands and does not intend to transfer this water right with the primary water right. The affiant requests a partial cancellation described as follows:

Conclusions of Law

The proposed changes in place of use as proposed in Transfer Application T-13049 comply with and satisfy the requirements of ORS 540.580 and OAR 690-385-4500, and the abandoned portions of the rights should be cancelled.

Now, therefore, it is ORDERED:

1. The proposed changes in place of use to the water right evidenced by Certificates 74306, 85974, 74299 as modified by CW-92, 85975, and 85976. are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use not modified by this order and is subject to all other conditions and limitations contained in Certificates 74306, 85974, 74299 as modified by CW-92, 85975, and 85976, and any related decree.
3. The portions of the water rights as evidenced by Certificates 39053, 82151, and 94222 as requested to be canceled are canceled. New certificates will be issued describing the balance of the rights not modified by this Final Order.
4. The place of use from which the water right is removed by T-13049 shall no longer be irrigated under the transferred right.
5. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2020**. A Claim of Beneficial Use shall be submitted by FID to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
7. Water right Certificates 74306, 85974, 74299 as modified by CW-92, 85975, and 85976 are modified. After satisfactory proof of completion has been determined by the Department, superseding confirming-remaining water right certificates will be issued when the Department determines it is necessary for record keeping.
