5. The Department finds that the lease application requires modification in order to clarify the amount of water allowed under each priority date associated with the primary right, certificate 76358. In addition, the supplemental right requires clarification to identify the amount of water that may be leased and to clarify the source of water. The rights are clarified as follows (changes are shown in bold text):

Certificate: 76358
Use: Irrigation
Acres: 53.48 acres
Priority Date: October 31, 1900 & December 2, 1907
Season of Use: April 1 through October 31, further limited as follows:

 May 1 to May 15 and September 15 to October 1 described herein as Season 2

Quantity: Season 1 (limited to 1/80th Cubic Foot per Second (CFS) per acre): 0.67 CFS
 Season 2 (limited to 1/60th cfs per acre): 0.89 CFS
 Season 3 (limited to 1/32.4th cfs per acre): **1.65 CFS, being 1.18 CFS under the 1900 priority date and 0.47 CFS under the 1907 priority date**
 Duty (limited to 9.91 acre-feet per acre): 530.0 AF
 The quantities listed reflect allowance of a 45% transmission loss as determined by decree of the Circuit Court of Deschutes County, dated March 24, 1933.

Certificate: 76714
Use: Irrigation
Acres: 53.48 acres
Priority Date: February 28, 1913
Season of Use: April 1 through October 31
Quantity: **51.89 AF.** This right does not have a rate limitation. This volume is based upon evenly distributing each acre-foot stored in Crane Prairie Reservoir, 50,000 af, under this certificate between the 51,536.847 acres to which water may be applied. The distribution per acre is 0.97 af per acre.

6. The application proposes to lease water for instream as follows:

Reach: From the COID North Canal POD (11) (SE NE, Section 29, T17S, R12E, W.M., 850 Feet North and 630 Feet West from the E 1/4 Corner, Section 29) on the Deschutes River to Lake Billy Chinook.

Certificate	Priority Date	Rate Instream	Period Protected Instream	Days Instream	Volume Instream
76358 (primary)	October 31, 1900 & December 2, 1907	Season 1: 0.37 CFS Season 2: 0.49 CFS Season 3: 0.91 CFS	April 1 through Oct. 31	214	295.14 AF
76714 (supplemental)	February 28, 1913	Season 1: 0.37 CFS Season 2: 0.49 CFS Season 3: 0.91 CFS	April 1 through Oct. 31	214	295.14 AF

7. The Department finds that in order to prevent injury and enlargement the applicant's request must be modified. Clarification of the rate at which water is to be leased instream by priority date as well as the total volume for the primary right is necessary. In addition, the amount of water that may be leased instream under the supplemental right needs some clarification. Therefore, the Department finds that water may be leased instream as follows (changes are shown in bold text):

Reach: From the COID North Canal POD (11) (SE NE, Section 29, T17S, R12E, W.M., 850 Feet North and 630 Feet West from the E 1/4 Corner, Section 29) on the Deschutes River to Lake Billy Chinook.

Certificate	Priority Date	Rate Instream	Period Protected Instream	Days Instream	Volume Instream
76358 (primary)	October 31, 1900 & December 2, 1907	Season 1: 0.37 CFS under the 1900 priority date Season 2: 0.49 CFS under the 1900 priority date Season 3: 0.91 CFS, being 0.65 CFS under the 1900 priority date and 0.26 CFS under the 1907 priority date	April 1 through Oct. 31	214	295.14 AF
76714 (supplemental)	February 28, 1913	Sufficient quantities may be protected instream to make up any deficiency of the primary right	April 1 through Oct. 31	214	51.89 AF

8. To prevent injury an enlargement, the amount of water to be leased instream under certificate 76358 accounts for a 45% transmission loss that may not be leased and protected instream.
9. Certificate 76714 is supplemental to certificate 76358. The portion of certificate 76714 being leased instream shall only be protected instream if the full rate and duty under certificate 76358 are not available during the period for which water is being leased instream.
10. Based upon review of the application and information provided by the Department's Watermaster, the Department finds that the lease, as modified, will not result in injury or enlargement.
11. The lease will terminate on October 31, 2004.

CONCLUSIONS OF LAW

The Department concludes that the lease, as modified above, will not result in injury or enlargement, OAR 690-077-0077.
