Twp	Rng	Mer	Sec	Q-Q	Measured Distances
5 N	27 E	WM	13	NW SW	2270 FEET NORTH AND 940 FEET EAST FROM THE SW CORNER OF SECTION 13

MUNICIPAL USE
WITHIN THE CITY OF UMATILLA WATER SERVICE AREA

14. Transfer Application T-14099 proposes to change the character of use to MUNICIPAL USE.
15. Certificate 53653 does not specify the irrigation season. However, consistent with the Columbia River rights, the irrigation season is March 1 through October 31.

This diversion may be eligible for screening cost share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

18. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

19. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-14099.
20. The proposed changes would not result in enlargement of the right, if conditioned so that the rate of diversion for the proposed municipal uses shall be limited to 1.68 cubic feet per second and shall be further limited to a total annual volume diverted of 343.35 acre-feet (76.3 acres x 4.5 acre-feet per acre) during the time period of March 1 through October 31 of each year.
21. The proposed changes would not result in injury to other water rights.
22. All other application requirements are met.
