- The lease application includes the information required under OAR 690-077-0077(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(6). No comments were received.
- The instream use is as described in the lease application:
Yamhill River
Tributary to Willamette River in the Willamette Basin

Instream Reach: From POD near RM 10.75 (as described in Finding of Fact #2) to mouth of Hawn Creek at RM 9.0

| Certificate | Priority Date | Instream Rate (cfs) | Period Protected Instream |
|-------------|-------------------|---------------------|-----------------------------|
| 15702 | December 23, 1938 | 0.39 | June 1 through September 30 |
| 28151 | March 7, 1958 | 0.25 | June 1 through September 30 |

- Based upon review of the application, comments received, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.
- If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.
- The lease will terminate on September 30, 2006.

CONCLUSIONS OF LAW

The Department concludes that the lease will not result in injury or enlargement, OAR 690-077-0077. The lease agreement conforms to the applicable provisions of OAR 690-077-0015.
