6. Notice of the application for the permit amendment was published in the Department's weekly notice on July 1, 2008, and in the _____ newspaper on _____, 2008, pursuant to ORS 540.520(5). No comments were filed in response to the notices.
7. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted. The permit requires fish screening devices on all points of diversion.
8. The change would not result in injury to other water rights.
9. The proposed place of use is owned and/or controlled by the permit holder.
10. The change does not enlarge the permit.
11. The change does not alter any other terms of the permit.
12. The proposed place of use is contiguous to the authorized place of use.

Conclusion of Law

The change in point of diversion for Swan Island 1A, additional points of diversion, and change in place of use proposed by Permit Amendment Application T-10656 is consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

The change and subsequent use of water shall be subject to the following conditions:

1. The quantity of water diverted at the new point of diversion for Swan Island 1A shall not exceed the quantity of water lawfully available at the original point of diversion for Swan Island 1A.
2. The combined quantity of water diverted at the portable pump stations, together with the amount diverted at the original points of diversion, shall not exceed the quantity of water lawfully available at the original points of diversion.
3. Prior to water use from the proposed points of diversion, the permittee shall install a meter. The permittee shall maintain the meter in good working order, shall keep a complete record of the rate and amount of water used each month and shall submit a report which includes the recorded water use measurement to the Department annually or more frequently as may be required by the Director. Further, the permittee shall report general water use information to the Department, including the place and nature of use of water under the permit along with the maintenance and operation of fish screening devices.

The permittee shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

4. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the proposed points of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards. A screen maintenance schedule shall be incorporated into the permittee's operations manual for the water system.
5. Water shall be acquired from the same surface water sources as the original points of diversion.
6. All other terms and conditions of Permit S-51547 remain the same.
7. Permit S-51547, in the name of Port of Portland, is amended as described herein.

Dated at Salem, Oregon this 31ST day of October, 2008.
