Transfer Review Criteria (ORS 540.572; 540.570 and 540.580; OAR 690-385)

7. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
8. Diversion structures, district canals, wells, pumps, pump stations, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights are present.
9. The District permanent transfer application satisfies the criteria of OAR 690-385-4000, contains the information required under OAR 690-385-2000, and includes maps meeting the requirements of OAR 690-385-2200.
10. The proposed changes would not result in injury to other water rights as defined in OAR 690-385-0100(6).
11. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
12. All other applicable requirements for district water right transfers are met.
13. The proposed changes would not result in enlargement of the rights as defines in OAR-690-385-0100(4).

3. The former places of use shall no longer be irrigated as part of these water rights.
4. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
5. The approved changes shall be completed and full beneficial use of the water shall be made on or before October 1, 2016.
6. A Claim of Beneficial Use (COBU) shall be submitted by Westland Irrigation District to the Department by October 1, 2017.
7. Water right certificates 76715 and 79439 are modified. The Department will issue superseding certificates describing the District's rights when it determines that is necessary for record keeping.
