- The Department finds that the lease application requires modification in order to clarify the amount of water allowed under each priority date associated with the primary right, certificate 76358. In addition, the supplemental right requires clarification to identify the amount of water that may be leased and to clarify the source of water. The rights are clarified as follows (changes are shown in bold text):

**Certificate:** 76358  
**Use:** Irrigation  
**Acres:** 1.4 acres  
**Priority Date:** October 31, 1900 & December 2, 1907  
**Season of Use:** April 1 through October 31, further limited as follows:

     Duty (limited to 9.91 acre-feet per acre): 13.9 AF  
     The quantities listed reflect allowance of a 45% transmission loss as determined by decree of the Circuit Court of Deschutes County, dated March 24, 1933.  
**Source:** Deschutes River, tributary to the Columbia River

**Certificate:** 76714

**Priority Date:** February 28, 1913  
**Season of Use:** April 1 through October 31  
**Quantity:** **1.36 AF.** This right does not have a rate limitation. This volume is based upon evenly distributing each acre-foot stored in Crane Prairie Reservoir, 50,000 af, under this certificate between the 51,536.847 acres to which water may be applied. 6. The application proposes to lease water for instream as follows:

Reach: From the COID North Canal POD (11) (SE NE, Section 29, T17S, R12E, W.M., 850 Feet North and 630 Feet West from the E 1/4 Corner, Section 29) on the Deschutes River to Lake Billy Chinook.

Certificate	Priority Date	Rate Instream	Period Protected Instream	Days Instream	Volume Instream
76358 (primary)	October 31, 1900 & December 2, 1907	Season 1: 0.01 CFS Season 2: 0.01 CFS Season 3: 0.02 CFS	April 1 through Oct. 31	214	7.73 AF
76714 (supplemental)	February 28, 1913	Season 1: 0.01 CFS Season 2: 0.01 CFS Season 3: 0.02 CFS	April 1 through Oct. 31	214	7.73 AF

7. The Department finds that in order to prevent injury and enlargement the applicant's request must be modified. Clarification of the rate at which water is to be leased instream by priority date as well as the total volume for the primary right is necessary. In addition, the amount of water that may be leased instream under the supplemental right needs some clarification. Therefore, the Department finds that water may be leased instream as follows (changes are shown in bold text):

Reach: From the COID North Canal POD (11) (SE NE, Section 29, T17S, R12E, W.M., 850 Feet North and 630 Feet West from the E 1/4 Corner, Section 29) on the Deschutes River to Lake Billy Chinook.

Certificate	Priority Date	Rate Instream	Period Protected Instream	Days Instream	Volume Instream
76358 (primary)	October 31, 1900 & December 2, 1907	<b>Season 1: 0.01 CFS under the 1900 priority date</b> <b>Season 2: 0.01 CFS under the 1900 priority date</b> <b>Season 3: 0.024 CFS, being 0.017 CFS under the 1900 priority date and 0.007 CFS under the 1907 priority date</b>	April 1 through Oct. 31	214	7.73 AF
76714 (supplemental)	February 28, 1913	<b>Sufficient quantities may be protected instream to make up any deficiency of the primary right</b>	April 1 through Oct. 31	214	1.36 AF

8. To prevent injury an enlargement, the amount of water to be leased instream under certificate 76358 accounts for a 45% transmission loss that may not be leased and protected instream.
9. Certificate 76714 is supplemental to certificate 76358. The portion of certificate 76714 being leased instream shall only be protected instream if the full rate and duty under certificate 76358 are not available during the period for which water is being leased instream.
10. Based upon review of the application and information provided by the Department's Watermaster, the Department finds that the lease, as modified, will not result in injury or enlargement.
11. The lease will terminate on October 31, 2008. The Lessors and Lessee have requested the option of terminating the lease early with written notice to the Department.

### CONCLUSIONS OF LAW

The Department concludes that the lease, as modified above, will not result in injury or enlargement, OAR 690-077-0077.
