3. Application T-10082 proposes to change the point of appropriation of the permit to:

Township		Range		Meridian	Sec	¼ ¼		Location
39	S	9	E	W.M.	33	NE	NW	3400 feet South from the N¼ Corner of Section 33.

4. Notice of the application for permit amendment was published pursuant to ORS 540.520(5). No comments were filed in response to the notice.
5. The Ground Water Section has concluded that in order to prevent injury to other water rights, the proposed point of appropriation shall be constructed to obtain ground water from basalt and/or cinders below the basin fill sediments.
6. The change, as conditioned, would not result in injury to other water rights.
7. The change does not enlarge the permit.
8. The change does not alter any other terms of the permit.

Conclusions of Law

The change in point of appropriation proposed by Permit Amendment Application T-10082 is consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

The change and subsequent use of water shall be subject to the following conditions:

1. The quantity of water diverted at the new point of appropriation (well) shall not exceed the maximum rate and duty allowed under Permit G-15235.
2. Prior to water use from the proposed point of appropriation, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, and shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

3. The proposed point of appropriation shall be constructed to obtain ground water from basalt and/or cinders below the basin fill sediments.
4. All other terms and conditions of Permit G-15235 remain the same.
5. Permit G-15235, in the name of Jeff M. and Sandra S. Hunter, is amended as described herein.

Dated at Salem, Oregon this 22 day of August, 2006.
