4. Transfer Application T-11392 proposes to TEMPORARILY change the place of use of the right to:

**Proposed Place of Use:**

<b>TOTAL:</b>						<b>227.1</b>	

5. Transfer Application T-11392 also proposes to add points of appropriation for the proposed place of use (described in Finding of Fact #4 above). The additional points of appropriation are located as follows:

**Proposed Additional Points of Appropriation:**

Twp	Rng	Mer	Sec	Q - Q	Measured Distances
3 N	29 E	WM	24	SW NE	Coppinger NEW Well #1 - 20 feet North and 1490 feet West from the E1/4 Corner of Section 24
3 N	29 E	WM	23	NE NE	Coppinger Well #3 - 3960 feet North and 1320 feet West from the SE Corner of Section 23
3 N	30 E	WM	30	NE SW	Ditchen Well #1 - 30 feet South and 640 feet West from the Center of Section 30
3 N	30 E	WM	20	SW SW	Ditchen Well #2 - 80 feet East from the SW Corner of Section 20

14. The field (identified on the transfer map as Circle #41 and in the table below) served by the pivot is larger than the number of acres being proposed to be moved “to” this location. The lands involved are as follows:

IRRIGATION							
Twp	Rng	Mer	Sec	Q - Q	Tax Lot	Acres	User
3 N	29 E	WM	13	NE NE	3700	26.6	KENNETH COPPINGER
3 N	29 E	WM	13	NW NE	3700	26.6	KENNETH COPPINGER
3 N	29 E	WM	13	SW NE	3700	26.5	KENNETH COPPINGER
3 N	29 E	WM	13	SE NE	3700	26.6	KENNETH COPPINGER

15. The District has included in a separate transfer application (T-11404) additional water right sufficient to cover the area served by this pivot.
16. In the event that the portion of Transfer Application T-11404 that is adding additional water right to Circle #41 is not approved the District shall cease using the end spigots/end guns that would deliver water to the outer reaches of Circle #41.
17. The Department has determined that the proposed additional points of appropriation are within the same subareas (D and H) of the Stage Gulch Critical Ground Water Area. The Department has also determined that the proposed additional points of appropriation will develop the same source of water as the authorized wells described in Certificate 80849.
18. The district temporary transfer application satisfies the criteria of OAR 690-385-3000, contains the information required under OAR 690-385-3200, and includes a map meeting the requirements of OAR 690-385-3300.
19. The water right is subject to transfer as defined in OAR 690-385-0100(17).
20. The proposed changes in place of use would not result in enlargement of the right.
21. The proposed changes would not result in injury to other water rights.

### Conclusions of Law

The temporary change in place of use and additional points of appropriation as proposed in Transfer Application T-11392 satisfies the requirements of ORS 540.574(3) and 540.570.

### Now, therefore, it is ORDERED:

1. The temporary changes proposed in Transfer Application T-11392 are approved.
2. The former places of use **shall not** be irrigated as part of this water right during the 2012 irrigation season.
3. The use shall revert to the authorized places of use at the end of the 2012 irrigation season. The authorization to use the additional points of appropriation shall be terminated concurrently.
4. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.

5. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
6. The use of water on the lands from which the water right is transferred and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
7. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
8. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
9. A subsequent application for permanent transfer of Certificate 80849 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Divisions 380 and 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
10. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 80849.
11. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
12. The use of the remaining water right described by Certificate 80849 shall continue to be in accordance with the terms and conditions of Certificate 80849.

Dated at Salem, Oregon this 30 day of May, 2012.
