6. Information in the CBU indicates some water user(s) and tax lot number(s) have changed subsequent to the issuance of the final order approving Transfer Application T-11696 on some parcels affected by the transfer. In addition, portions of the transfer for Certificates 83571 and 76714 were developed differently than authorized in the final order. Any such changes as identified in the CBU and associated maps are shown in **BOLD** in the table below.

***These reconfigured places of use are within the same tax lot and quarter-quarter.**

7. The reconfigured changes in place of use as documented in the CBU and associated maps are determined satisfactory because the reconfigured, completed uses are under the same water right holders, do not enlarge the rights and affect the same number of irrigated acres.
8. Satisfactory proof of the changes was submitted with evidence showing that water was used in the locations and for the purpose as authorized by the final order approving Transfer Application T-11696.

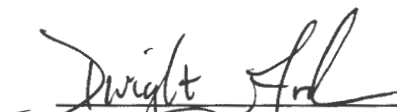

Conclusions of Law

Pursuant to ORS 540.530 and OAR 690-385-7600, the Department may issue or modify a certificate upon a determination the application of water to beneficial use under the terms of the final order approving a permanent district transfer was completed to the extent authorized.

Now, therefore, it is ORDERED:

1. The water has been applied to beneficial use to the extent authorized under the terms of the final order approving Transfer Application T-11696 with the modifications as shown in Table 2, above.
2. Water right certificates 83571 and 76714 are modified. The Department will issue superseding certificates describing the rights when it determines it is necessary for record keeping.

Signed at Salem, Oregon this 30 day of December, 2016.
