Transfer Review Criteria (ORS 540.572; 540.570 and 540.580; OAR 690-385)

21. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
22. Diversion structures, district canals, wells, pumps, pump stations, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights is present.
23. The district temporary transfer application satisfies the criteria of ORS 540.570 and OAR 690-385-3000, contains the information required under OAR 690-385-3200, and includes a map meeting the requirements of OAR 690-385-3300.
24. The proposed changes would not result in injury to other water rights as defined in OAR 690-385-0100(4).

25. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
26. The proposed changes would not result in enlargement of the rights as defined in OAR 690-385-0100(4).
27. All other applicable requirements for district temporary water right transfers are met.

Conclusions of Law

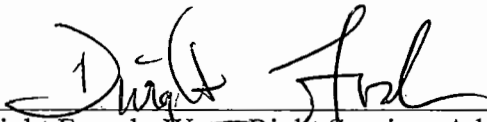

The temporary change in place of use proposed in Temporary Transfer Application T-12670 is consistent with the requirements of ORS 540.570 and OAR 690-385-8000.

Now, therefore, it is ORDERED:

1. The temporary changes in place of use as proposed in Transfer Application T-12670 are approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the 2017 irrigation season, except as specifically outlined and described herein.
3. The use shall revert to the authorized place of use at the end of the 2017 irrigation season.
4. A subsequent application for permanent transfer of Certificates 81815, 80652, 76050, 79439, 76717, 76715, 75127, and 76722 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
5. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 81815, 80652, 76050, 79439, 76717, 76715, 75127, and 76722.
6. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
7. The use of water on the lands from which the water right is transferred, and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
8. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
9. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.

10. The use of the remaining water right described by Certificates 81815, 80652, 76050, 79439, 76717, 76715, 75127, and 76722 shall continue to be in accordance with the terms and conditions Certificates 81815, 80652, 76050, 79439, 76717, 76715, 75127, and 76722.
