9. Temporary Transfer Application T-12441 proposes to temporarily transfer water rights within the boundaries of Columbia Improvement District. The district was notified of the proposed temporary transfer and indicated that the district did not object to the transfer.

Temporary Transfer Review Criteria

10. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
11. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights is present.
12. The proposed change would not result in enlargement of the rights. The purpose of the proposed temporary change in place of use is to temporarily transfer water rights from drip irrigated 8 foot strips to irrigated pivots containing row crops. Any use of water outside of the proposed pivots could be readily observed by the Watermaster, thus the need and use of soil moisture monitoring conditions described in the certificates will not be needed to monitor the proposed temporary place of use.
13. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary change in place of use proposed in Temporary Transfer Application T-12441 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use proposed in Temporary Transfer Application T-12441 is approved.
2. The former place of use **shall not** be irrigated as part of these water rights during the 2017 and 2018 irrigation seasons.
3. The use shall revert to the authorized place of use at the end of the 2018 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
5. A subsequent application for permanent transfer of Certificates 76586, 89511, and 83591 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.

6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 76586, 89511, and 83591. However, the proposed temporary places of use shall be exempt from conditions requiring soil moisture monitoring.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The use of the remaining water rights described by Certificates 76586, 89511, and 83591 shall continue to be in accordance with the terms and conditions of Certificates 76586, 89511, and 83591.
