Conclusions of Law

The temporary change in places of use proposed in Temporary Transfer Application T-13959 is consistent with the requirements of ORS 540.570 and OAR 690-385-3500.

Now, therefore, it is ORDERED:

1. The temporary changes in places of use proposed in Transfer Application T-13959 are approved.
2. The lands from which the water right is removed under Certificate 89373 shall receive no water under the transferred right during the 2022 irrigation season.
3. The use shall revert to the authorized places of use after the 2022 irrigation season.
4. Any application for permanent transfer of Certificate 89373 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Divisions 380 or 385. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
5. The time during which water is used on the proposed lands under this approved temporary transfer does not apply toward a finding of forfeiture of Certificate 89373, under ORS 540.610.
6. The water user shall maintain and operate the existing measurement devices and shall make such improvements as may be required by the Department.
7. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
8. Pursuant to ORS 536.900, a district and user may be subject to civil penalties for allowing the use of water on both the land from which water is transferred, and the lands to which the water is transferred, during the same irrigation season or calendar year.
9. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 89373.
10. The use of the remaining water rights described by Certificate 89373 not involved in this transfer shall continue to be in accordance with the terms and conditions of Certificate 89373.
