- Certificate 57891 does not specify the irrigation season. However, to avoid the possibility of injury or enlargement the Applicant requested the be protected from June 22 through September 30.
- The lease application includes the information required under OAR 690-077-0076(3). The Department provided notice of the lease application pursuant to OAR 690-077-0077(1). No comments were received in response to that notice.
- The instream use is as follows:

SOUTH YAMHILL RIVER, tributary to the YAMHILL RIVER

Instream Reach: From the POD, as described in Finding of Fact #2, to the mouth of the South Yamhill River.

Certificate	Priority Date	Instream Rate	Instream Volume	Period Protected Instream
57891	1/14/1977	1.58 CFS	316.5 AF	June 22 through September 30

- If approved, this instream lease is not reasonably expected to significantly affect land use as prescribed by ORS 197.180, OAR Chapter 660, Divisions 30 and 31, and OAR Chapter 690, Division 5.
- Based upon review of the application, comments received, information provided by the Department's Watermaster, and other available information, the Department finds that the lease will not result in injury or enlargement. This finding is made through an abbreviated review recognizing that the lease may be modified or revoked under OAR 690-077-0077 if the Department later finds that the lease is causing injury to any existing water right or enlargement of the original right.

8. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077-0070 or OAR 690-077-0075 a new injury review shall be required. Transfers will be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380 and Division 077. Approval of this lease does not establish a precedent for approval of future leases or transfers.
9. The Lessor requested that the lease terminate on December 31, 2015. However, a lease may not be extended beyond the end of the irrigation season. Therefore, the lease will terminate on September 30, 2015.

CONCLUSIONS OF LAW

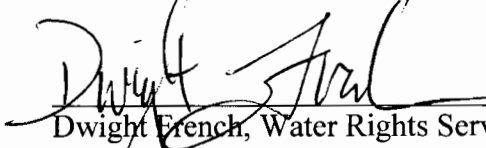

The Department concludes that the lease will not result in injury or enlargement pursuant to OAR 690-077-0077. The lease conforms to the applicable provisions of OAR 690-077-0015.

ORDER

Therefore, it is ORDERED:

1. That the Lease as described herein is APPROVED.
2. The former place of use will no longer receive water as part of these rights, any supplemental rights, or any other layered water rights for irrigation use, including ground water registrations during the term of the lease.
3. The lessor *shall* have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use (May 22) or after the period of allowed use has begun for the water right(s) being leased, water shall not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur.
4. The lease will commence on terminate on September 30, 2015.

Dated at Salem, Oregon this 14 day of July 2011.
