

Rate: 0.55 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Source: BUTTE CREEK within the PUDDING RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q
5 S	1 W	WM	25	NE NW

Authorized Place of Use:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
5 S	1 W	WM	24	SW SE	73	06.96
5 S	1 W	WM	25	NW NE	73	30.90
5 S	1 W	WM	25	SW NE	73	06.14

5. Temporary Transfer Application T-12071 proposes to temporarily change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
5 S	1 W	WM	13	SW NE	14.00
5 S	1 W	WM	13	SE NW	30.00

Temporary Transfer Review Criteria

6. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
8. The proposed change would not result in enlargement of the right.
9. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary change in place of use proposed in application Temporary Transfer Application T-12071 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use proposed in Temporary Transfer Application T-12071 is approved.
2. The former place of use **shall not** be irrigated as part of this water right during the 2015 irrigation season.
3. The use shall revert to the authorized place of use at the end of the 2015 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the change cause injury to any existing water right.
5. A subsequent application for permanent transfer of Certificate 43544 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 43544.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. Water use measurement conditions:
 - a. **Before water use may begin** under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).
 - b. The water user shall maintain the meter or measuring device in good working order.
 - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.
9. The use of the remaining water right described by Certificate 43544 shall continue to be in accordance with the terms and conditions of Certificate 43544.

Dated at Salem, Oregon this 4 day of August, 2015.
