**Application History**

Permit G-15690 was issued by the Department on August 6, 2004. The permit called for complete application of water to beneficial use by October 1, 2008. On April 7, 2020, the City of Portland Parks and Recreation submitted an application for an extension of time for Permit G-15690. In accordance with OAR 690-315-0050(2), on August 25, 2020, the Department issued a Proposed Final Order proposing to extend the time to fully apply water to beneficial use to October 1, 2033. The protest period closed October 9, 2020, in accordance with OAR 690-315-0060(1). No protest was filed.

## FINDINGS OF FACT

The Department adopts and incorporates by reference the findings of fact in the Proposed Final Order dated August 25, 2020.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following condition:

### CONDITIONS

1. **Development Limitations**

No appropriation of water is currently allowed under the unperfected portion of Permit G-15690<sup>1</sup>. Any appropriation of the remaining unperfected portion of water under the permit, being 1.11 cfs, shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 86 that authorizes access to a greater rate of appropriation of water under the permit consistent with OAR 690-086-0130(7). The required WMCP shall be submitted to the Department within 3 years of this Final Order. The amount of water used under Permit G-15690 must be consistent with this and subsequent WMCP's approved under OAR Chapter 690, Division 86 on file with the Department.

The Development Limitation established in the above paragraph supersedes any prior limitation of the appropriation of water under Permit G-15690 that has been established under a prior WMCP or Extension final order issued by the Department.

The deadline established in the Extension Final Order for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of the final order may also meet the WMCP submittal requirements of other Department orders.

### CONCLUSION OF LAW

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0080(3).

---

<sup>1</sup> Permit G-15690 was issued for a total of 2.67 cfs of water for municipal use; 1.56 cfs of water for municipal use was partially perfected under Certificate 89550.
