**Now, therefore, it is ORDERED:**

1. The modification to Registration Application GR-683 (Certificate of Registration GR-681) proposed in Groundwater Registration Modification Application T-13565 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.
2. The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-683 (Certificate of Registration GR-681) and any related decree.
3. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

4. The quantity of water diverted at the new additional points of appropriation (Well 12 and Well 13), together with that diverted at the original point of appropriation (Pump Well #7), shall not exceed the quantity of water lawfully available at the original point of appropriation (Pump Well #7).
