The additional points of appropriation and change in points of appropriation proposed by Permit Amendment Application T-10488 are consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

The change and subsequent use of water shall be subject to the following conditions:

2. Water shall be acquired from the same ground water source as the original points of appropriation.
3. Before water use may begin under this permit, the permittee shall install a totalizing flow meter on each well. The totalizing flow meter(s) must be installed and maintained in good working order consistent with those standards identified in OAR 690-507-645(1) through (3). The permittee shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

The permittee shall allow the watermaster access to the meter; provided however, where the meter(s) is (are) located within a private structure, the watermaster shall request access upon reasonable notice.
