

5. On June 5, 2018, the Department contacted Jerald Bush by written correspondence to notify the applicant and applicant's agent, that submission of a signed statement indicating the supplemental irrigation would not be used on the "FROM" lands covered under Certificate 16641 for the duration of the temporary transfer is required. The Department requested that the deficiency be resolved by July 5, 2018. No response was received to the correspondence.
6. The portion of the first right to be temporarily transferred is as follows:

Temporary Transfer Review Criteria

18. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
19. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
20. The proposed changes would not result in enlargement of the rights.
21. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Now, therefore, it is ORDERED:

The temporary changes in place of use and change in points of diversion to convey water to the temporary place of use proposed in Temporary Transfer Application T-12862 appear NOT to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. The applicant has not provided sufficient information indicating the supplemental irrigation would not be used on the "FROM" lands covered under Certificate 16641 for the duration of the temporary transfer. Temporary Transfer Application T-12862 is denied.
