OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	FINAL ORDER
T-11454, Grant County)	APPROVING A CHANGE IN POINT OF
)	DIVERSION AND PLACE OF USE

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

Background

1. On August 1, 2012, Rick Hufstader and Cynthia Strickland filed an application to change the point of diversion and to change the place of use under Certificate 86539. The Department assigned the application number T-11454.
2. Notice of the application for transfer was published on August 7, 2013, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On August 27, 2013, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11454 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of September 28, 2013, for the applicant to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer. The agent for the applicants also requested the proposed point of diversion description be corrected to better describe and reflect the application and application map.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On January 14, 2014, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11454 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on January 21, 2014, and in the Blue Mountain Eagle newspaper on January 22 and 29, 2014, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notices.
5. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.
6. The portion of the right to be transferred is as follows:

Certificate: 86539 in the name of KATHERINE GEISLER (perfected under Permit S-18828)

Use: IRRIGATION OF 7.4 ACRES

Priority Date: JUNE 28, 1949

Rate: 0.185 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 5.0 acre-feet per acre for each acre irrigated during the irrigation season from April 1 to September 30 of each year.

13 S	29 E	WM	18	SE SE	1.0
13 S	29 E	WM	19	NW NE	0.8
TOTAL					7.4

7. Certificate 86539 describes the location of the point of diversion in relation to a survey corner in Section 27, of Township 13 South, Range 29 East. The point of diversion is described as being within the NW¼ of the NE¼ within Section 27. However, information is available from the current map prepared by the applicant's Certified Water Rights Examiner based on a recent field visit and subsequent survey indicating that the point of diversion is northeast approximately 150 feet from the original point of diversion, and is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
13 S	29 E	WM	22	SW SE	80 FEET NORTH AND 3590 FEET EAST FROM THE SW CORNER OF SECTION 22

8. Transfer Application T-11454 proposes to change the place of use within the same quarter quarters located:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
13 S	29 E	WM	18	SW SE	5.6
13 S	29 E	WM	18	SE SE	1.0
13 S	29 E	WM	19	NW NE	0.8
TOTAL					7.4

9. Transfer Application T-11454 also proposes to change the point of diversion downstream approximately 4 miles to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
13 S	29 E	WM	18	SW SE	590 FEET NORTH AND 1980 FEET WEST FROM THE SE CORNER SECTION 18

Transfer Review Criteria [OAR 690-380-4010(2)]

10. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
11. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11454.
12. The proposed changes would not result in enlargement of the right.
13. The proposed changes would not result in injury to other water rights.

Conclusions of Law

The change in point of diversion and change in place of use proposed in Transfer Application T-11454 is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

Now, therefore, it is ORDERED:

1. The changes in point of diversion and place of use proposed in Transfer Application T-11454 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 86539 and any related decree.
3. Water Right Certificate 86539 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
4. The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.
5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at the new point of diversion.
 - b. The water user shall maintain the meter or measuring device in good working order.
 - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.
7. The former place of use of the transferred right shall no longer receive water under the right.
8. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2015**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.

9. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.
