Back Ground

1. On September 21, 2009 Mike Hawman filed an Application for Allocation of Conserved Water. The Department assigned the application number CW-63.
2. On January 4, 2011 the Department issued Special Order Volume 83, Page 281 (*pages 281 through 294 inclusive*), which approved, partially cancelled and partially finalized Allocation of Conserved Water Application CW-63. The order also notified the Applicant's and all parties who had filed comments that any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1).

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

3. The Order Approving and Partially Finalizing CW-63 as recorded in Special Order Volume 83, at Page 293, reserved the following portion of the Applicant's instream until a permanent place of use could be determined. The Order further stated that, before any portion of the Conserved Water reserved instream could be applied to any beneficial use, the Applicant must submit, and the Department must approve Request for Finalization. The Applicant's portion of the Conserved Water reserved instream is as follows:

The irrigation season is March 1

Now, therefore, it is ORDERED:

Consistent with Special Order Volume 80, Page 394, the Department takes the following actions:

1. The Applicants' request to finalize Increment III of Allocation of Conserved Water Application CW-63, as described above, is approved.
2. Before water use may be applied to the new lands the applicant shall install totalizing flow meters to the Department's satisfaction at the authorized points of diversion from the Columbia River (*if not already present*) and at such places, including "tie-ins," or connection points as deemed necessary by the Watermaster to ensure the Applicant is not exceeding the quantity of water allowed on the new lands as described above. Additionally, the meters must be maintained in good working order according to manufacturer's specifications. A different plan for measurement of diverted water at each point of diversion that is acceptable to, and approved by the Director, may be allowed.
3. The applicant shall provide the Watermaster access to the meters or measuring devices at all times. However, if the meter is located within a private structure, the Watermaster shall provide reasonable notice of intent to inspect the meter, prior to entering the private structure.

4. The Applicant shall maintain a complete record of water usage on a monthly basis and shall submit annual reports of water usage to the Watermaster's office in Pendleton. The water use reports shall include recorded monthly water usage measurements from each point of diversion and each tie-in. The reports shall also include dates of measurement and other information as may be requested by the Watermaster. The frequency or timing of the reports may be modified upon a determination by the Department that an alternate frequency is needed or appropriate. The reporting frequency may also be modified, if requested by the Applicant and approved by the Department. The reports may be e-mailed, faxed or mailed.
5. Additional measurement and reporting conditions, including, but not limited to, additional measuring sites, general water-use information, the place and nature of use of water, and telemetry may be required at the discretion of the Department.
6. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2013**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
7. When satisfactory proof of the completed change is received, new certificates confirming the use of the conserved water on the new lands will be issued.
