4. Certificate 23674 does not describe the measured distance of the point of diversion however, the applicant has provided a description of the approximate point of diversion as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
5 S	6 W	WM	34	SW NE	POD 1 – APPROXIMATELY 1005 FEET NORTH AND 576 FEET EAST FROM THE CENTER OF SECTION 34

5 S	6 W	WM	34	NW NE	SSD 1 - 1440 FEET NORTH AND 1330 FEET WEST FROM THE E 1/4 CORNER OF SECTION 35

Temporary Transfer Review Criteria

7. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing right are present.
9. The proposed changes would prevent the lands from which the water right is removed during the period of the temporary transfer from receiving water under the transferred right, as required by ORS 540.523(7).
10. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in place of use and point of diversion to convey water to the temporary place of use proposed in Temporary Transfer Application T-13825 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use and change in point of diversion to convey water to the temporary place of use proposed in Temporary Transfer Application T-13825 are approved.
2. The former place of use **shall not** be irrigated as part of this water right during the 2021 AND 2022 irrigation seasons.
3. The use shall revert to the authorized place of use at the end of the 2022 irrigation season. The authorization to use the additional point of diversion shall be terminated concurrently.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. A subsequent application for permanent transfer of Certificate 23674 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 23674.

7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The use of the remaining water right described by Certificate 23674 shall continue to be in accordance with the terms and conditions of Certificate 23674.
