

4. On August 14, 2017, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12082 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of September 13, 2017, for the applicant to respond. On August 30, 2017, the agent for the applicant requested additional time for completion of the transfer to be extended to October 1, 2019 to guarantee adequate time to complete the project. The Department approved and extended the date by which the applicant must make full beneficial use of water under the terms and conditions of this transfer to October 1, 2019. In addition, the agent, on behalf of the applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
5. On September 19, 2017, the Department issued a Preliminary Determination proposing to approve Transfer T-12082 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on September 19, 2017 and in the Heppner Gazette newspaper on September 20 and 27, 2017 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notices.
6. The portion of the right to be transferred is as follows:

10. The Department has determined that the proposed additional points of appropriation develop the same source of water as the authorized existing wells, Wells A and E.

Transfer Review Criteria (OAR 690-380-4010)

11. Water has been used within the five-year period prior to submittal of the transfer application according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
12. A well, pumps, pipeline, and municipal delivery system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12082.

13. The proposed changes, as conditioned, would not result in enlargement of the right. The use of water for municipal purposes within the Port's Service area boundary described in Finding No. 5 above shall be conditioned to be limited to the irrigation season from March 1 to October 31 of each year. The use shall also be conditioned to be limited to a total annual duty of 388.8 acre-feet per year.
14. The proposed change would not result in injury to other water rights.
15. The Port of Morrow is a municipality as defined in ORS Chapter 540.510(3)(b), Chapter 261 and a water supplier defined in ORS 448.115. Therefore, pursuant to OAR 690-380-3000(13)(b), the applicant is not required to provide a report of ownership information.
16. All other application requirements are met.

Partial Cancellation of a Water Right

17. On August 14, 2017, the applicant submitted an affidavit meeting the requirements of ORS 540.621 for the partial cancellation of Water Right Certificate 80921. This portion is the layered supplemental water right appurtenant to the primary water right being transferred in this transfer. The applicant has abandoned any and all interest in this portion of the water right for supplemental irrigation and is described as follows:

Certificate: 80921, in the name of PRUDENTIAL INSURANCE COMPANY OF AMERICA (perfected under Permit S-35694)
Use: SUPPLEMENTAL IRRIGATION OF 129.6 ACRES
Priority Date: NOVEMBER 5, 1971
Rate: 2.50 CUBIC FEET PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cfs, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4½ acre-feet per acre for each acre irrigated during the irrigation season of each year.

Conclusions of Law

The additional points of appropriation, change in character of use and change in place of use proposed in Transfer Application T-12082 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000 and the abandoned portion of the right should be cancelled.

Now, therefore, it is ORDERED:

1. The additional points of appropriation, change in character of use and change in place of use proposed in Transfer Application T-12082 are approved. The portion of water right Certificate 80921 that has been abandoned is cancelled.
2. The right to use of the water is restricted to beneficial use at the place of use described, and will continue to be subject to all other conditions and limitations contained in Certificate 51824 and any related decree.
3. Water Right Certificates 51824 and 80921 are cancelled. New certificates will be issued describing those portions of the rights not affected by this transfer and cancellation.
4. Water shall be acquired from the same aquifer (water source) as the original points of appropriation. Proposed EB Well No. 4 and EB Well No. 5 shall be constructed similarly to appropriate water from the same alluvial aquifer system as the original points of appropriation.
5. The quantity of water diverted at the proposed additional points of appropriation shall not exceed the quantity of water lawfully available at the original points of appropriation, totaling 1.62 cfs to be used in any combination between the Port of Morrow's Well A and E and these new additional proposed wells.

6. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at **each** (new and existing) points of appropriation.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2019**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water
8. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 3 day of November, 2017.
