FINAL ORDER

March 3, 2000

Echo Irrigation District
P.O. Box 110
Hermiston, Oregon 97838

RE: Approval of District Temporary Transfer File T-8406

Pursuant to ORS 540.570, Echo Irrigation District filed a request to move the place of use of certain water rights within the District for the 2000 irrigation season. The changes requested are enumerated on the attached sheet. Notice of the request was published in summary form by the Water Resources Department on January 11, 2000. Public comments were accepted for 30 days following publication. No comments were received.

Pursuant to ORS 540.570 (3) and OAR 690-21-060 (2) staff have reviewed the requested changes. This review finds that the proposed changes do not injure existing rights or result in enlargement of the subject rights. Therefore, the request as enumerated on the attached sheet and as conditioned below, is approved for the 2000 irrigation season.

1. Prior to using water on the subject lands, for each point of diversion/appropriation included in the temporary transfer, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Watermaster.
2. Within ten (10) days of the Watermaster's request, the water user shall install an in-line flow meter or other means for measuring the quantity of water going to the "TO" lands. The type and plans of the measuring device must be approved by the Watermaster.

This is an order other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2).

Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005, you may either petition for judicial review or petition the Director for reconsideration of this order.

3. Prior to using water on the subject lands, the water user shall install back flow prevention devices on all wells.
4. Pursuant to 540.570 (2) water will not be used on the subject lands until 60 days after the district's notice was received or the start of the irrigation season, whichever is later. The notice was received January 5, 2000. Water will not be used on the subject lands until March 5, 2000.
5. The "FROM" lands will receive no water under the rights involved with T-8406 for the 2000 irrigation season.
6. The "FROM" lands will receive no water under any other rights appurtenant to these lands for the 2000 irrigation season, unless water rights are transferred to the "FROM" lands. In no case shall a temporary transfer allow the enlargement of the water right.
7. All restrictions and limitations contained in the decree or permit of the subject rights will apply to the "TO" lands. Water use from the wells shall not exceed the limits imposed by the Stage Gulch Critical Groundwater Area.
8. Pursuant to 540.570 (6), the Department may further condition or revoke a temporary transfer at any time to the extent necessary to avoid injury if the department finds the transfer is causing injury to an existing water right.
9. Pursuant to 540.570 (7), upon expiration of the temporary transfer period, all uses of water for which a temporary transfer is allowed under this section shall revert automatically to the terms and conditions of the original water right permit, certificate or an adjudication proceeding under ORS chapter 539 as evidenced by a court decree.

Copies of the approved request and associated maps are on file at the Department's North Central Region office in Pendleton.

Sincerely,

Bernadette Williams

Bernadette Williams
Field Water Rights Technician
