

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)
T-11629, Lake County)
)
) **FINAL ORDER APPROVING CHANGE
) IN POINTS OF APPROPRIATION,
) PLACE OF USE, AND PARTIAL
) DIMINISHMENT OF A WATER RIGHT**

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicants

SILVER LAKE IRRIGATION DISTRICT	BELL A LAND AND CATTLE
C/O TOM O'LEARY	C/O THERESA CLIFF
PO BOX 96	PO BOX 97
SILVER LAKE, OR 97638	LA PINE, OR 97739

Findings of Fact

1. On June 28, 2013, SILVER LAKE IRRIGATION DISTRICT, C/O TOM O'LEARY and BELL A LAND AND CATTLE C/O THERESA CLIFF filed an application to change the place of use under Certificates 81396, 81659 and 86160 and to change points of appropriation and the place of use under Certificates 46780 and 62688. The Department assigned the application number T-11629.
2. Notice of the application for transfer was published on July 9, 2013, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On May 8, 2014, the Department contacted Dennis Glender by written correspondence to notify the applicant's agent of the deficiencies in the application. The Department requested address corrections, authorized place of use and tax lot corrections, a signature from the Silver Lake Irrigation District and an Affidavit for Partial Diminution of a Water Right Certificate with a map showing the acreage to be diminished.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On May 16, 2014, August 11, 12, 2014 and October 8, 2014, Dennis Glender submitted documents resolving the deficiencies.
5. On October 9, 2014, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11629 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of November 8, 2014, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
6. On November 7, 2014, the Department issued a preliminary determination proposing to approve Transfer T-11629 and mailed a copy to the applicants. Additionally, notice of the preliminary determination for the transfer application was published on the Department's weekly notice on November 11, 2014, and in the Lake County Examiner newspaper on November 12 and 19, 2014 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notices.
7. The portion of the first right to be transferred is as follows:

Certificate: 46780 in the name of CAMERON CLIFF (perfected under Permit G-5544)
Use: IRRIGATION of 81.6 ACRES
Priority Date: MARCH 28, 1972
Rate: 1.02 CUBIC FEET PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

28 S	14 E	WM	24	SE NE	28.4
Total					58.0

16. The portion of the fourth right to be transferred is as follows:

Certificate: 81659 in the name of SILVER LAKE IRRIGATION DISTRICT C/O LAWRENCE IVERSON (perfected under Permit S-29955)
Use: SUPPLEMENTAL IRRIGATION of 58.0 ACRES
Priority Date: AUGUST 24, 1964
Rate: 44.35 ACRE FEET
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.
Source: EAST THOMPSON VALLEY RESERVOIR enlarged under Permit R-4461, a tributary of SILVER CREEK (DRY)

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
30 S	14 E	WM	17	SE SW	EAST THOMPSON VALLEY RESERVOIR - 600 FEET NORTH AND 1700 FEET EAST FROM THE SW CORNER OF SECTION 17

Authorized Place of Use:

28 S	15 E	WM	18	NE NE	30.9
28 S	15 E	WM	18	SE NE	27.1
Total					58.0

17. Certificate 81659 has a scrivener's error describing the place of use acres as being Primary and Supplemental Irrigation. The use should be described as Supplemental Irrigation only.

18. Transfer Application T-11629 proposes to change the place of use of the right to:

SUPPLEMENTAL IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
28 S	14 E	WM	24	NE NE	7.5
28 S	14 E	WM	24	NW NE	1.5
28 S	14 E	WM	24	SW NE	20.6
28 S	14 E	WM	24	SE NE	28.4
Total					58.0

19. The portion of the fifth right to be transferred is as follows:

Certificate: 86160 in the name of BELL "A" LAND & CATTLE CO. AND NW FARM CREDIT SERVICE, FLCA (perfected under Permit G-10039)

Use: IRRIGATION of 63.3 ACRES AND SUPPLEMENTAL IRRIGATION of 55.4 ACRES

Priority Date: FEBRUARY 28, 1983

Rate: 0.59 CUBIC FOOT PER SECOND (CFS), being 0.06 CFS from Well 1; 0.17 CFS from Well 2; 0.18 CFS from Well 3; 0.09 CFS from Well 4; and 0.09 CFS from Well 5, or its equivalent in case of rotation, measured at the well.

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Partial Diminution of a Water Right

21. On October 8, 2014, an affidavit requesting partial diminution of a water right to be diminished from primary irrigation to supplemental irrigation was received from Tom O’Leary of Silver Lake Irrigation District.

22. The right to be diminished is as follows:

Certificate: 86160 in the name of BELL “A” LAND & CATTLE CO AND NORTHWEST FARM CREDIT SERVICE, FLCA (perfected under Permit G-10039)

Use: IRRIGATION of 7.2 ACRES

Priority Date: FEBRUARY 28, 1983

Rate: 0.04 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH, of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Transfer Review Criteria [OAR 690-380-4010(2)]

23. Water has been used within the five-year period prior to submittal of the transfer application according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
24. A pump, pipeline, and sprinkler system and open canals for flood irrigation sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-11629.
25. The proposed changes as conditioned would not result in enlargement of the rights.
26. The proposed changes as conditioned would not result in injury to other water rights.

Conclusions of Law

The changes in points of appropriation and place of use proposed in Transfer Application T-11629 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

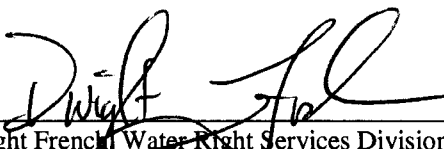

Now, therefore, it is ORDERED:

1. The change in points of appropriation and place of use proposed in Transfer Application T-11629 are approved.
2. The water right for the irrigation of 7.2 acres under Water Right Certificate 86160 as described in Finding No. 22 is diminished from primary irrigation to supplemental irrigation.
3. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 46780, 62688, 81396, 81659, 86160 and any related decree.
4. Water Right Certificates 46780, 62688, 81396, 81659 are cancelled. New certificates will be issued describing that portion of the rights not affected by this transfer.

5. Water Right Certificate 86160 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer and modified by the diminishment.
6. The quantity of water diverted at the new points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.
7. Prior to diverting water, the water user shall install a headgate to control and regulate the quantity of water diverted. The type and plans of the headgate must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain the headgate as required by the Department.
8. Water use measurement conditions:
 - a) **Before water use may begin** under this order, the water user shall install a weir, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing).
 - b) The water user shall maintain the weirs or measuring devices in good working order.
 - c) The water user shall allow the Watermaster access to the weirs or measuring devices; provided however, where the weirs or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. Static Water Level Conditions:
 - a) The Department requires a qualified individual (see below) to measure, record, and report annual static water levels for each well on the permit. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement in a format approved by the Department (see below).
 - b) The water user shall report an initial March static water-level measurement once well construction is complete and annual measurements thereafter. Annual measurements are required whether or not the well is used. The first annual measurement will establish a reference level against which future measurements will be compared. However, the Director may assign a reference level based on an analysis of other water-level data. The Director may require the user to measure, record, and report water levels more frequently each year if more data are needed to evaluate the aquifer system.
 - c) All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Measurements shall be submitted on forms provided by, or specified by, the Department. Measurements shall be made with a calibrated electric tape or steel tape that is accurate to at least 0.025 feet and reported to a precision of at least 0.10 feet. The Department requires the individual performing the measurement to:

- i. Associate each measurement with an owner's well name or number and a Department well log ID; and
 - ii. Report water levels to at least the nearest tenth of a foot as depth-to-water below ground surface; and
 - iii. Specify the method of measurement; and
 - iv. Certify the accuracy of all measurements and calculations reported to the Department.
10. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
11. The former place of use of the transferred rights shall no longer receive water under the rights.
12. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2016**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
13. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this 22 day of December, 2014.

Dwight French, Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

Mailing date: DEC 24 2014
