**HOOD RIVER COUNTY**

IN THE MATTER OF PARTIAL PERFECTION OF )  
WATER RIGHT PERMIT S-34196 IN THE NAME ) **ORDER**  
OF CRYSTAL SPRINGS WATER DISTRICT )

**STATEMENT**

On January 18, 2017, the Water Resources Department received a request from Crystal Springs Water District to partially perfect the use of water under water right permit S-34196.

**FINDINGS OF FACT**

Permit S-34196 allows for the use of 3.5 cubic feet per second (CFS) from Crystal Springs, a tributary of East Fork Hood River, for municipal use.

Crystal Springs Water District has requested partial perfection of permit S-34196 and issuance of a water right certificate for 2.85 CFS. The request was accompanied by the survey required under ORS 537.230(4). The survey shows, to the satisfaction of the Director, that the appropriation has been partially perfected in accordance with the provision of the Water Rights Act.

ORS 537.260 allows, without loss of priority or cancellation to the permit, the incremental perfection of the water right permit in an amount of not less than 25 percent, pursuant to ORS 537.260 and OAR 690-320-0040.

The Department finds that the City has perfected 2.85 CFS. The quantity of water is equal or greater than the 25 percent of the original quantity of water allowed under permit S-34196.

OAR 690-320-0040(5) allows municipal suppliers that incrementally perfect less than the full quantity of water to request further extension of time to complete construction and apply water to beneficial use for the remaining, unperfected quantity of water.

A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

As of the date of this order, crystal Springs Water District has an approved extension of time (to Oct 1, 2058) for this municipal water use permit to completely apply water to beneficial use under Permit S-34196.
