

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) FINAL ORDER APPROVING AN
T-10218, Wasco County) ADDITIONAL POINT OF
) APPROPRIATION

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

Lonnie Wright
5450 Mill Creek Road
The Dalles, OR 97058

Findings of Fact

Background

1. On July 24, 2006, Lonnie Wright, filed an application requesting to add an additional point of appropriation under Certificates 22885 and 22893. The Department assigned the application number T-10218.
2. Lonnie Wright filed the application on behalf of several land owners, all receiving water from the existing well and the new proposed well, located on his property. The other landowners are as follows:

T1N R13E Sec. 18 TL 1000	Bill Tenneson 5299 Mill Creek Rd. The Dalles, OR 97058	Scott Tenneson 4800 Mill Creek Rd. The Dalles, OR 97058
T1N R12E Sec. 13 TL 1902	Benjamin and Susan Synon 5020 Mill Creek Rd. The Dalles, OR 97058	

3. The first right to be transferred is as follows:

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

TOTAL:							127.9

5. Application T-10218 proposes to add an additional point of appropriation to the above described water rights approximately 400 feet east located:

Proposed Point of Appropriation:

Twp	Rng	Mer	Sec	Gov't Lot / DLC	Q - Q	Survey Coordinates
1 N	13 E	WM	18	DLC 44	NW SW	755 Feet South and 743 Feet West from the NE Corner of DLC 44

6. The proposed point of appropriation is an existing well (WASC 51130). The well develops the same source of water as the well at the currently authorized point of appropriation (WASC 2598).
7. Notice of the application for transfer was published on August 22, 2006, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
8. On September 24, 2007, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-10218 to the applicants. The draft Preliminary Determination requested written authorization from the affected landowners involved, allowing Mr. Lonnie Wright to file on their behalf. The draft Preliminary Determination also requested a report of land ownership and lien information report from each of the landowners. The cover letter set forth a deadline of October 24, 2007, for the applicants to respond. Larry Toll, CWRE and the applicants' agent, responded, that all the landowners described above agree with the findings and conditions of the draft Preliminary Determination and wish for the Department to proceed with issuance of a Preliminary Determination. Also, on October 24, 2007, the Department received the reports of ownership prepared by a title company which demonstrate that the applicants are authorized to pursue the transfer.
9. On December 13, 2007, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10218 and mailed a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on December 18, 2007, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
10. Water has been used within the last five years according to the terms and conditions of the rights, and there is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
11. A well, pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Application T-10218.
12. The proposed change would not result in enlargement of the rights.
13. The proposed change would not result in injury to other water rights.

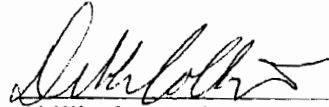

Conclusions of Law

The change requesting to add an additional point of appropriation proposed in Transfer Application T-10218 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change to include an additional point of appropriation proposed in application T-10218 is approved.
2. Water right Certificates 22885 and 22893 are cancelled. New certificates will be issued to describe those portions of the rights not affected by this transfer.
3. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 22885 and 22893 and any related decree.
4. Water shall be acquired from the same aquifer (water source) as the original point of appropriation, WASC 2598.
5. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.
7. The approved changes shall be completed and full beneficial use of the water shall be made on or before October 1, 2009. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
8. When satisfactory proof of the completed change is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this 29th day of January, 2008.
