

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

DOUGLAS COUNTY

IN THE MATTER OF THE APPLICATION OF)
MICHAEL J. WOOTON FOR APPROVAL OF A)
CHANGE IN POINT OF DIVERSION OF WATER)

ORDER APPROVING
TRANSFER 4637

On November 13, 1980, an application was filed in the office of the Water Resources Director by Michael J. Wooton for approval of a change in point of diversion of water from North Umpqua River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 32648, Volume 24, State Record of Water Right Certificates, in the name of Curtis Trent, describes a right which includes the use of not to exceed 0.007 cubic foot per second from North Umpqua River for irrigation of a certain 0.53 acre in NE 1/4 NE 1/4, as projected within McKinney DLC 47, Section 27, Township 26 South, Range 6 West, WM, with a date of priority of July 31, 1962.

Water for the said right is diverted from a point located 60 feet North and 400 feet West from the Southeast Corner of Section 22, being within the SE 1/4 SE 1/4 of Section 22, Township 26 South, Range 6 West, WM.

The applicant herein, owner of the lands above described, proposes to change the point of diversion, without loss of priority, to a point located 830 feet South and 850 feet West from the Northeast Corner of Section 27, being within the NE 1/4 NE 1/4, Section 27, Township 26 South, Range 6 West, WM.

M. John Youngquist, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed 0.007 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1982.

The order of the Water Resources Director entered December 29, 1980, approving Transfer 4617, provided for cancellation of the certificate of water right recorded at page 32648, Volume 24, State Record of Water Right Certificates, and issuance of a new certificate covering the balance of the right NOT involved in the transfer proceedings; therefore,

It is FURTHER ORDERED that upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

Dated at Salem, Oregon this 29th day of December, 1980.

JAMES E. SEXSON
Director
