

STATE OF OREGON

COUNTY OF CLACKAMAS

ORDER APPROVING A CHANGE IN POINT OF APPROPRIATION

Pursuant to ORS 537.211, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, PERMIT AMENDMENT T-7490 submitted by

RIVERGROVE WATER DISTRICT
17725 SW BOONES FERRY ROAD
LAKE OSWEGO, OREGON 97035.

The permit to be modified is Permit G-6023, with a date of priority of JANUARY 29, 1974. The permit allows the use of RIVERGROVE WATER DISTRICT WELL #3, for MUNICIPAL PURPOSES. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 1.0 cubic foot per second, if available at the original well; SW¼ NW¼, SECTION 20, T 2 S, R 1 E, WM; SOUTH 11° 24' 22" EAST, 2198.41 FEET FROM THE NW CORNER, SECTION 20, or its equivalent in case of rotation, measured at the well.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

The authorized place of use is as follows:

THE SERVICE AREA OF THE RIVERGROVE WATER DISTRICT
AS DESCRIBED IN PERMIT G-6023

This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be reduced.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

The applicant proposes to change the point of appropriation to:

NW¼ NW¼, SECTION 20, T 2 S, R 1 E, WM; 690 FEET SOUTH AND 1105 FEET EAST FROM THE NW CORNER, SECTION 20.

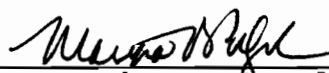

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

THIS CHANGE TO AN EXISTING WATER PERMIT MAY BE MADE PROVIDED THE FOLLOWING CONDITIONS ARE MET BY THE PERMIT HOLDER:

1. The quantity of water diverted at the new point of appropriation (well), together with the quantity diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available from the original point of appropriation.
2. When required by the Department the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
3. Water shall be acquired from the same aquifer as the original point of appropriation.
4. All other terms and conditions of the permit remain the same.

Permit G-6023, in the name of Rivergrove Water District, is amended as described herein.

WITNESS the signature of the Water Resources
Director, affixed January 21, 1997.

Martha O. Pagel, Director
