

3. The Department reviewed the CBU and map(s) submitted by the applicant for Transfer Application T-11944.
4. The CBU did not contain a map of the point of diversion from the source. However, since the transfer involved the transfer of places of use only within an irrigation district and did not involve a change in the point of diversion, the existing maps on file with the Department are sufficient to identify the point of diversion from the source.
5. The proposed place of use for Certificate 74145 as approved the final order for Transfer Application T-11944, and as recorded in Special Order Volume 95, Pages 40-42 is shown in Table 1, below:
