3. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 46638 and any related decree.
4. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
5. The proposed changes shall be completed on or before October 1, 2010.
6. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2011.
7. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
8. Prior to diverting water at the new points of appropriation, the water user shall install and maintain in-line flow meters or other suitable devices for measuring and recording the quantity of water appropriated. The type and plans of the measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
