use of water under this permit shall be limited to appropriation of water only to the extent that such appropriation does not interfere with or deplete the flow of Mill Creek or any tributary thereof; any depletion will require the well or wells to be shut down, since Mill Creek and its tributaries have been closed to further appropriation, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before **January 3, 1985**, and shall thereafter be prosecuted with reasonable diligence and be completed on or before **October 1, 1985**. Extended to **October 1, 1991**, 10-1-91

Complete application of the water to the proposed use shall be made on or before **October 1, 1986**. Extended to **October 1, 1991**, 10-1-91

Witness my hand this **3rd** day of **January**, 19 **84**.
