Permit No. G-2048

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Peter Wetten
(Name of applicant)
of Rt. 2 Box 283 Canby, county of Clackamas,
(Postoffice Address)
state of Orego, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1 Mile from Molalla river

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated 1 mile west of the Molalla river
(Name of stream)
tributary of Willamette river

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 120 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 1140 FT EAST ft. and _____ ft. from the S.W. corner of section 19, on the south line of this section 19 within the SW 1/16 of the section.
(Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the James Officer DLC 39 of Sec. 19, Twp. 4S, R. 2E W. M., in the county of Clackamas

5. The movable irrigation pipe to be 1/4 miles in length, terminating in the SW 40 acres of Sec. 19, Twp. 4S R. 2E, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line)
(Smallest legal subdivision)

6. The name of the well or other works is Wetten's Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 6" inches and an estimated depth of 180' feet. It is estimated that 180' feet of the well will require welded steel casing. Depth to water table is estimated 180' static level at 24'
(Give number of wells, tunnels, etc.)
(Feet)

12. To what use is the water to be applied? _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2315.00
- 15. Construction work will begin on or before Sept 8 1957
- 16. Construction work will be completed on or before Sept. 21 1957
- 17. The water will be completely applied to the proposed use on or before Irrigation season 1959

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

P. Wetton

Remarks: _____

County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.27 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 29, 1958

Actual construction work shall begin on or before October 20, 1959 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 20th day of October 1958
