

# STATE OF OREGON

County of JACKSON

## PERMIT TO APPROPRIATE THE PUBLIC WATERS

This is to certify that I have examined APPLICATION G-11574 and do hereby grant the same SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

This permit is issued to Charles A. Wetlesen of 920 Hogan Road, Applegate, Oregon, 97530, phone 846-7671, for use of the waters from one well,

for the PURPOSE of Supplemental irrigation of 8.0 acres,

that the PRIORITY OF THE RIGHT dates from August 26, 1986,

and is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.1 cubic foot per second,

measured at the point of diversion from the well, or its equivalent in case of rotation with other water users.

The well is to be LOCATED: 700 feet South and 1290 feet East from the West quarter corner of Section 4, being within the NW 1/4 SW 1/4 Section 4, Township 39 South, Range 4 West, WM, in the County of Jackson.

A description of the PLACE OF USE under the permit, and to which such right is appurtenant, is as follows:

Township 39 South, Range 4 West, WM Section 4 NW1/4 SW1/4 8.0 acres

The AMOUNT OF WATER used for irrigation, together with the amount secured under any other right existing for the same lands shall be limited to 1/80 of one cubic foot per second per acre, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

This permit shall be limited to appropriation of water only to the extent that such appropriation does not interfere with or deplete the flow of Thompson Creek or any tributary thereof; any depletion will require the well to be shut down, since the waters of Thompson Creek and tributaries have been classified by the Water Resources Commission only for certain uses, not including irrigation.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before April 23, 1988, and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 89.

Complete application of the water to the proposed use shall be made on or before October 1, 19 90.

Witness my hand this 23rd day of April, 19 87.

/s/ WILLIAM H. YOUNG

WATER RESOURCES DIRECTOR

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
