Permit No. G- **108**

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Cecil C. Haley  
(Name of applicant)

of P.O. box 145, Bonanza, county of Klamath  
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Lost River  
(Name of stream)

tributary of Tulelake

2. The amount of water which the applicant intends to apply to beneficial use is 2 1/3 cubic feet per second or 1050 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located South 63°42' East 375.7 feet from the west quarter  
(Section or subdivision)

Section 7, Twp. 39 N., R. 12 W.,  
(Section or subdivision)

(If optional, give distance and bearing to section corner)

(If optional, give area of well, tunnel or other source. Use separate sheet if necessary)

of Sec 7 of Twp 39 N. R 12 W.

of Klamath county

The well is to be 5400 feet deep

(well is 1/2 in middle)

and in SW corner of Sec 7 of Twp 39 N.

The proposed location being shown hereinafter on the accompanying map

and the well is to be named Haley well

DESCRIPTION OF WORKS

If the water is artesian, the works to be used for the control and conservation of the water must be described

The well is to be 5400 feet deep

with an estimated depth of 250 feet to the water table

at 11 o'clock

CANAL SYSTEM OR PIPE LINE--

9 (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) six feet; width on bottom two feet; depth of water two feet; grade .5 feet fall per one thousand feet.

(b) At same size throughout miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 120 ft.; size at intake, eight in. / in size at well to ditch throughout in. / in size at from intake in.; size at place of use in.; difference in elevation between intake and place of use, one foot ft. Is grade uniform? yes Estimated capacity 2 1/3 sec. ft.

10. If pumps are to be used, give size and type size: 8" column--12" bowls type: turbine

(Give horsepower and type of motor or engine to be used 30 h.p. electric motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use:

Section	Range	Section	Four-Corner Tract	Net Area (Acres)
1		1	SW1/4	18.2
"		"	SE1/4	12.0
"		"	SW1/4	1.2
"		7	SW1/4	9.0
"		18	SW1/4	.2

13. Name of irrigator or owner of area to be irrigated

14. Name of irrigator or owner of area to be irrigated

15. Name of irrigator or owner of area to be irrigated

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

14. Estimated cost of proposed works, \$ 5000.00 .....

15. Construction work will begin on or before immediate .....

16. Construction work will be completed on or before May 1, 1957 .....

17. The water will be completely applied to the proposed use on or before May 1, 1957 .....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. ....

*Bevil C. Haley*  
(Signature of applicant)

Remarks: large size requested to save labor--less water will be used than if smaller pump

STATE OF OREGON  
County of Marion

I, the undersigned, being duly sworn, depose and testify that I have examined the foregoing application, together with the accompanying exhibits, and that the same are true and correct to the best of my knowledge and belief.

Witness my hand and the seal of my office this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

Attest: \_\_\_\_\_  
State Engineer

STATE OF OREGON,

PERMIT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.64 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Haley Well

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring and adequate to determine water level elevation in the well at all times.

The priority date of this permit is December 27, 1955

Actual construction work shall begin on or before February 15, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

The complete application of the water to the proposed use shall be made on or before October 1, 1958

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water

applied, and this 15th day of February 1956
