is hereby issued a permit to use the waters from ONE WELL WITHIN BEAVER CREEK BASIN, for INDUSTRIAL USE IN MEAT PACKING PLANT. The permit to the use of these waters has been issued under Application G-11789 with a date of priority of FEBRUARY 3, 1989. The permit is limited to not more than 150.0 GALLONS PER MINUTE or its equivalent in case of rotation, measured at the well.

The well is located as follows:

NW 1/4 NW 1/4, Section 22, T 8 S, R 1 W, WM;  
585 FEET SOUTH & 470 FEET EAST FROM NW CORNER, SECTION 22.

Use of water under this permit shall be limited to appropriation of water only to the extent that it does not impair or substantially interfere with prior ground water rights of others and further limited to the appropriation of water only to the extent that such appropriation does not interfere with or deplete the flow of Mill Creek or any tributary thereof. Any depletion of surface waters will require the well to be shut-down because the use of waters from Mill Creek and tributaries are withdrawn from further appropriation.

The use of water allowed under this permit shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The place of use is as follows:

	1/4 1/4	SECTION	TOWNSHIP	RANGE,	WM

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before April 5, 1990, and shall be completed on or before October 1, 1991. Complete application of the water to the use shall be made on or before October 1, 1992.
