

Permit No. G-110

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Ruby W. Wilson (Name of applicant)

of Rt. 2, Box 13-A, Hermiston, Ore., county of Umatilla

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated 21 miles from Hermiston (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 125 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 225 ft. N and 215 ft. W from the corner of Sec. 35, T. 4 N., R. 2 E., S. 1 W. (Section of subdivision)

1770 ft. S.W. corner of section 35 (If preferable, give distance and bearing to section corner)

If there is more than one well, each one to be described. Use separate sheet if necessary.

has a well in the S.W. 1/4 of S.W. 1/4 of Sec. 35, T. 4 N., R. 2 E. Well with pump & Umatilla

The well is to be used for irrigation to be used for irrigation miles

along with the well in the S.W. 1/4 of Sec. 35, T. 4 N., R. 2 E.

The location of the well and other works is shown throughout on the accompanying map

The location of the well and other works is shown throughout on the accompanying map

DESCRIPTION OF WORKS

If the water to be utilized is artesian, the work to be used for the control and measurement of the water must be described.

The well is to be used for irrigation to be used for irrigation miles

along with the well in the S.W. 1/4 of Sec. 35, T. 4 N., R. 2 E.

The location of the well and other works is shown throughout on the accompanying map

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; in size at _____ ft from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type *Turbine pumps - 125 gal. per minute*
 Give horsepower and type of motor or engine to be used *10 hp - electric*
3 hp - Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels, and the difference in elevation between the stream bed and the ground surface at the source of development.

12. Location of area to be irrigated, or place of use

Section	Range E. or W.	Section	Forty-acre Tract	Number Acres To be irrigated
5 N	3 E	3 E	E 1/2 SE 1/4 + SW 1/4	10
4 N	2 E	2	W 1/2 NW 1/4 + NE 1/4	10

(If more space required, attach separate sheets)

Location of area to be irrigated is as shown on map and is comprised of about 200 acres, mostly in the

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19 _____

14. Estimated cost of proposed works, \$ 4,500

15. Construction work will begin on or before Jan 1, 1956

16. Construction work will be completed on or before June 30, 1956

17. The water will be completely applied to the proposed use on or before Nov 1, 1956

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Hubert V. Wheeler
(Signature of applicant)

Remarks: _____

STATE OF OREGON
Department of Water

This is to certify that I have examined the foregoing application together with the accompanying _____
and return the same for _____ correcting

In order to retain its priority, this application must be returned to the State Engineer with earliest

possible on March 13, 1956.

WITNESSED and this 13th day of January 1956

LEWIS A. STALEY

State Engineer

By *Chris L. Wheeler*
Chris L. Wheeler, Assistant

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.28 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/30th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be still further limited to a diversion of not to exceed 0.28 c.f.s.; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring and adequate to determine water level elevation in the well at all times.

The priority date of this permit is January 4, 1956

Construction work shall begin on or before February 15, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

Application of the water to the proposed use shall be made on or before October 1, 1957

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water

WITNESS my hand and seal this 25th day of February 1956

Lewis A. Stanley STATE ENGINEER
