

STATE OF OREGON

COUNTY OF WASHINGTON

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

RICHARD EGGER  
31181 SW LAUREL ROAD  
HILLSBORO, OREGON 97123

503-628-1665

to use the waters of TWO WELLS in the TUALATIN RIVER BASIN for the purpose of IRRIGATION OF 169.5 ACRES AND SUPPLEMENTAL IRRIGATION OF 13.7 ACRES.

This Permit is issued approving Application G-11883. The date of priority is JANUARY 10, 1989. The use is limited to not more than 1.71 CUBIC FEET PER SECOND, BEING 0.37 CFS FROM WELL 1 AND 1.34 CFS FROM WELL 2, or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

NE 1/4 SE 1/4, NW 1/4 SE 1/4, SECTION 1, T 2 S, R 3 W, W.M.; WELL 1 - NORTH 57 DEGREES 49 MINUTES EAST, 2487.9 FEET FROM S 1/4 CORNER, SECTION 1; WELL 2 - 2 FEET SOUTH AND 1365 FEET WEST FROM E 1/4 CORNER, SECTION 1.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year. This right shall be limited to any deficiency in the available supply of any prior right existing for the same land.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under the permit is as follows:

WELL 1

PRIMARY

NE 1/4 SE 1/4 23.49 ACRES  
SW 1/4 SE 1/4 1.36 ACRES  
SE 1/4 SE 1/4 5.09 ACRES

WELL 2

PRIMARY

SUPPLEMENTAL

NE 1/4 NE 1/4 31.28 ACRES  
SW 1/4 NE 1/4 21.07 ACRES  
SE 1/4 NE 1/4 9.80 ACRES  
NE 1/4 SW 1/4 28.03 ACRES  
SE 1/4 SW 1/4 22.54 ACRES  
NW 1/4 SE 1/4 39.36 ACRES  
SW 1/4 SE 1/4 17.42 ACRES 13.70 ACRES

SECTION 1

TOWNSHIP 2 SOUTH, RANGE 3 WEST, W.M.

ASSIGNED. See Misc. Rec. Vol. 8 Page 431

Application G-11883 T-8612 Water Resources Department PERMIT G-11118

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The water user shall report a March static water level in the wells to the Ground Water/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, or professional engineer.

Use of water from the wells shall not be allowed under this permit if the well displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the wells are those found in the initial March measurements. That is the level from which previously cited declines will be referenced.

Actual construction work shall begin on or before OCTOBER 1, 1991, and shall be completed on or before October 1, 1992. Complete application of the water to the use shall be made on or before October 1, 1993.

This permit is for the beneficial use of water without waste. By law, the land use associated with this water must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights. The waters of Burris Creek and its tributaries were withdrawn from appropriation by order of the State Engineer entered January 25, 1951. This use shall be limited if it results in any depletion of the flows in Burris Creek or any of its tributaries.

Issued this date, OCTOBER 1, 1990.

75/ WILLIAM H. YOUNG

Water Resources Department  
William H. Young  
Director
