STATE ENGINEER
SALMON OREGON

Permit No. G-1142

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Cunningham Sheep Company
(Name of applicant)
of Pendleton, county of Umatilla,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

November 18, 1929, Pendleton, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Umatilla River
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 100 gallons per minute.

3. The use to which the water is to be applied is ~~domestic, livestock and~~ irrigation use

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the corner of North 73° 49' 30" West, a distance of 324.0 feet from the South-east corner of the Northeast Quarter of Section 6, Township 2 North, Range 30, W.M.
(Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 Northeast Quarter of Sec. 6, Twp. 2 N, R. 30 E, W. M., in the county of Umatilla

5. The canal to be one-twelfth miles in length, terminating in the SE 1/4 NE 1/4 of Sec. 6, Twp. 2 N, R. 30 E, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line)
(Smallest legal subdivision)

6. The name of the well or other works is Cunningham Sheep Company Nolin Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

All water is completely utilized for irrigation, livestock and domestic purposes. well will be capped with standpipe and valve for when it is not required for use.

8. The development will consist of one well having a diameter of 3 inches and an estimated depth of 233 feet. It is estimated that 27 feet of the well will require well casing. Depth to water table is estimated free flowing
(Give number of wells, tunnels, etc.)
(Kind) (Feet)

This question not applicable inasmuch as only simple ditch being used.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Not applicable - Free flowing well

Give horsepower and type of motor or engine to be used Not applicable - Free flowing well.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development In excess of one-fourth mile to stream channel.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2 North	30 East	6	Portions in all four 40's of NE $\frac{1}{4}$	16.1
			(NE $\frac{1}{4}$ of NE $\frac{1}{4}$)	1.4
			(SW $\frac{1}{4}$ of NE $\frac{1}{4}$)	1.8
			(SE $\frac{1}{4}$ of NE $\frac{1}{4}$)	16.1

(If more space required, attach separate sheet)

Character of soil Sandy loam

Kind of crops raised Irrigated pasture

MUNICIPAL SUPPLY

2. To supply the city of _____

in _____ county, having a present population of _____

and an estimated population of _____ in 19_____

14. Estimated cost of proposed works, \$ 3,000.00

15. Construction work will begin on or before Construction work completed

16. Construction work will be completed on or before Construction work completed

17. The water will be completely applied to the proposed use on or before Water presently being used

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Not supplemental

CUNNINGHAM SHEEP COMPANY

By [Signature] Secretary-Treasurer

Remarks: The well described herein has been constructed and in operation for several years and the foregoing application for permit is being filed pursuant to the suggestion of the State Engineer in letter of January 4, 1956, directed to Mr. George H. Corey, Attorney at Law, Robinson Building, Pendleton, Oregon.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____ September 10 _____, 1956

WITNESS my hand this 9th day of July, 1956

By LEWIS A. STANLEY STATE ENGINEER

Chris L. Wheeler, Assistant

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.22 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Cunningham Sheep Company Well.

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/100 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 18, 1956

Actual construction work shall begin on or before November 20, 1959 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 20th day of

November

1958
