Permit No. G-1144

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Lloyd Corporation, Ltd.
(Name of applicant)
of 9141 Olympic Boulevard -, county of Los Angeles, California
(Postoffice Address)
state of California, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

October 26, 1925 California

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willanette River
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 2 cubic feet per second or 900 gallons per minute.

3. The use to which the water is to be applied is as heat source and heat sink for a heat-pump-type air-conditioning system

4. The well or other source is located 253 ft. N. and 90 ft. E. from the S. W. corner of Block 112, Holladay's Addition to Portland.
(N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 35, Twp. 1 N., R. 1 E., W. M., in the county of Multnomah

5. The (not applicable) to be miles in length, terminating in the of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is Sheraton Hotel

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Not artesian

8. The development will consist of one well having a diameter of 16" inches and an estimated depth of 272 feet. It is estimated that 272 feet of the well will require 16" and 14" steel casing. Depth to water table is estimated 121
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE— NONE

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Deep well turbine type
..... Probably 12"

Give horsepower and type of motor or engine to be used 75 Hp electric motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distances to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1 N.	1 E.	35	NE $\frac{1}{4}$ NW $\frac{1}{4}$	Heat pump & air conditioning for 300 room hotel

(If more space required, attach separate sheet)

Character of soil
Kind of crops raised

13. To supply the city of _____
_____ county, having a present population of _____
and an estimated population of _____ in 19____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 7,000.00 for well
- 15. Construction work will begin on or before December 1, 1958
- 16. Construction work will be completed on or before January 30, 1959
- 17. The water will be completely applied to the proposed use on or before December, 1959

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

LLOYD CORPORATION, LTD.

By [Signature]
By [Signature]
(Signature of applicant)

Remarks: This water will be used as a source of stand-by water in conjunction with well No. 1 (drilled under permit #G 636) which will be used as the heat source and heat sink for a heat pump or reverse cycle refrigeration system being installed in the 300 room Sheraton Hotel.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19____.

WITNESS my hand this _____ day of _____, 19____.

STATE ENGINEER

By _____ ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Sheraton Hotel Well

The use to which this water is to be applied is industrial. The water used under this permit together with water used under permit No. U-636 shall not exceed 2.0 cubic feet per second.

If for irrigation, this appropriation shall be limited to - - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed - - - acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 3, 1958

Actual construction work shall begin on or before December 9, 1959 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 9th day of December, 1958

Lewis A. Stanley STATE ENGINEER

Application No. G-1322 Permit No. G-1144
