

STATE OF OREGON

COUNTY OF GILLIAM

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GARY WILDE  
18048 MIDDLE ROCK CREEK LANE  
ARLINGTON, OREGON 97812

503-454-2995

to use the waters of WELLS ONE AND TWO in the ROCK CREEK BASIN for PRIMARY IRRIGATION OF 7.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 47.8 ACRES.

This permit is issued approving Application G-13641. The date of priority is MARCH 14, 1994. The use is limited to not more than 0.69 CUBIC FOOT PER SECOND FROM WELL ONE WITH ANY DEFICIENCY TO BE MADE UP FROM WELL TWO, or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

SE 1/4 SW 1/4, SECTION 3, T 1 S, R 21 E, W.M.; WELL 2 - 4106 FEET SOUTH AND 1508 FEET EAST; WELL 1 - 4414 FEET SOUTH AND 2680 FEET EAST, BOTH FROM NW CORNER, SECTION 3.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year. The period of allowed use is March 1 through October 31.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

	<u>PRIMARY</u>	<u>SUPPLEMENTAL</u>
SW 1/4 NW 1/4	43.0 ACRES	12.8 ACRES
SE 1/4 NW 1/4		7.4 ACRES
NE 1/4 SW 1/4		12.3 ACRES
NW 1/4 SW 1/4		1.9 ACRES
SE 1/4 SW 1/4	4.6 ACRES	13.4 ACRES

SECTION 3

TOWNSHIP 1 SOUTH, RANGE 21 EAST, W.M.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

"CERTIFICATE NO. 75983"

- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before March 14, 1996 and shall be completed on or before October 1, 1997. Complete application of the water shall be made on or before October 1, 1998.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed one-eightieth of one cubic foot per second per acre and 2.5 acre-feet per acre. In the issuance of this superseding permit, the duty of water has been raised of one-eightieth cubic foot per second per acre and 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

Issued this date, April 24, 1995.

/s/ MARTHA O. PAGEL

Water Resources Department  
Martha O. Pagel  
Director
